Technology Initiative for seamless handling of Industrial Disputes:

SAMADHAN Portal for Industrial Dispute under Section 2-A and 2(k) of Industrial Disputes Act, 1947. ([https://samadhan.labour.gov.in/](https://samadhan.labour.gov.in/))

3.29 The prime responsibility of Ministry of Labour & Employment has always been to protect, preserve and uplift the interests of workers. The primary objective of Industrial Disputes Act, 1947 (ID Act) is to make provisions for the investigation and settlement of Industrial Disputes (IDs) which are defined under section 2-A and 2(k) of the Industrial Disputes Act, 1947, by way of mediation by the Conciliation Officer of the Appropriate Government. The ID Act, 1947 has been subsumed in Industrial Relations Code 2020 which is yet to be implemented.

3.30 In order to simplify the provisions, the amendment in the Industrial Disputes (Central) Rules, 1957 was done on 10.06.2019 wherein the Ministry as an appropriate government, administratively examines only the industrial disputes which does not seem to be fit for adjudication by the higher rank Labour Commissioners (C) whereas the cases which are found to be fit for adjudication are sent directly by Conciliation officers to the CGIT for adjudication.
3.31 In the present scenario of digitalization, the Ministry developed an e-dispute portal i.e. SAMADHAN (Software Application for Monitoring and Disposal, Handling of Apprehended/Existing Industrial Disputes) for filing disputes by a workman in a very simple and lucid way which has made the filing of the dispute easy.

3.32 SAMADHAN, the web portal, was launched by Secretary (Labour & Employment) on 6th February, 2019 in the 5 pilot regions i.e. Ajmer, Bengaluru, Bhubaneswar, Delhi and Raipur, and in May 2019 in the 6th region too i.e. Jabalpur. Thereafter, in order to ensure timely delivery of justice to all the workmen throughout the country, on 17th September, 2020, the Portal was launched on Pan India basis.

3.33 This initiative has ushered in a new era of Industrial Relations by hassle free and timely disposal of Industrial Disputes in a very simple, useful and transparent manner resulting into a simplified, standardized and streamlined process which is faster and easier to monitor. The paradigm shift in governance of Industrial Dispute statute ensures maintenance of peaceful work culture in the industry so that industrial growth doesn't suffer and rights of the employee remain protected.

3.34 As on date, there are total 7735 User IDs of which 6916 are Individual Users and 819 are Trade Union Users. Before the Pan India launch, 2183 industrial disputes cases were raised out of which approximately 75% cases were disposed of. Since the launch of portal, a total of 3066 cases have been raised through the portal and out of which 1986 cases have been disposed of.

3.35 Regular monitoring and analysis of MIS is done by the Program Management Unit (PMU) in the Ministry for which weekly and monthly reports are sought from the Conciliation officers. The review meetings are also conducted by the senior officers from time to time to appraise the performance of the portal.

3.36 PURPOSE OF SAMADHAN PORTAL

1. This online portal is devised to make it workers’ friendly, easy to understand for filing dispute, transparency in a way that status will be visible to all stakeholders at all times. Moreover, the Portal ensures accountability which makes process more effective and efficient.

2. Encourages transparency which ensures timely justice and trust by workers on the governance of the Government.

3. The aggrieved worker can handle his own case independently by himself without taking assistance of any middle man or trade union.

4. Cases falling under Section 2-A are directly referred to CGIT after lapse of 45 days before Conciliation officer which would reduce the time taken in manual application for redressal.

5. System enables automatic distribution of disputes to the concerned Conciliation Officers and make dispute redressal faster.

6. Being an integrated portal, the workers, Conciliation Officers, CGIT and Government have access to the documents for analysis and doing away with missing and repeated submission of document thus reducing the gap in communication.

7. It gives a bird’s eye view of the status of cases files, disposed of, pending, implemented, including statistics and thus will strength the monitoring system.

Monitoring of Industrial Relations

3.37 Based on the information received from Labour Bureau on the number and spatial dispersion of strikes/lockouts, number of workers involved and mandays lost, number of units reporting retrenchment and the extent of layoffs,
the Ministry monitors the industrial harmony prevalent in the country.

3.38 The total number of strikes and lockouts and man-days lost during the period 2015-2020(P) are as follows:

3.39 The spatial/industry wise dispersion of the number of strikes and lockouts and the workers consequently affected is not uniform. Man-days lost is a direct measure of the impact of industrial unrest on industrial production.

3.40 Most of the industrial unrests, as indicated by strikes and lockouts, are primarily caused by issues relating to indiscipline & violence, wages & allowances and personnel matters.

Retrenchment

3.47 As per the provisions contained in Chapter V-B of the Industrial Disputes Act, 1947, establishments employing 100 persons or more are required to seek prior permission of the appropriate Government in the prescribed application form before effecting closure, retrenchment or lay-off. In the Ministry of Labour & Employment, applications are received for such closures/retrenchments/lay-offs from establishment falling in the Central sphere. These applications are examined and hearing is held in order to provide an opportunity to both the management and the workers to make submissions on issues pertaining to the proposed action of the management. Based on the oral and written submissions made by the parties, and considering the reasonableness/ genuineness of the management's application, a decision to grant/not grant permission for closure, retrenchment or lay-off is taken. Whenever permission is granted, it is ensured that workers' interests are protected as far as possible.

3.48 The number of units effecting retrenchment and workers retrenched therein during the period 2015-2020(P) are as follows:

Introduction

5.1 In a labour surplus country like India, it is difficult to have an uniform and comprehensive wage policy for all sectors of the economy. Wages in the organized sector are generally determined through negotiations and settlements between the employer and the employees. In the unorganized sector, however, labour is vulnerable to exploitation due to illiteracy and lack of effective bargaining power. The minimum rates of wages are fixed both by the Central and the State Governments in the scheduled employments falling within their respective jurisdictions under the provisions of the Minimum Wages Act, 1948. The Act binds the employers to pay the workers the minimum wages so fixed from time to time.

Minimum Wages Act, 1948

5.2 Under the Minimum Wages Act, 1948 (the Act) both the Central and the State Governments are “Appropriate Governments” for fixation/revision of minimum rates of wages for the scheduled employments at an interval not exceeding five years. There are 45 scheduled employments in the Central sphere while in the State sphere the number (cumulative) of such employments is 1709. The Central Government has notified increase in the basic rate of minimum wages for all sectors in the Central sphere w.e.f. 19.01.2017. For the first time minimum wages for all sectors in the Central sphere, namely agricultural, non-agricultural, construction, etc. have been increased by 42% approximately.

5.3 The minimum rates of wages also include Special Allowance i.e. Variable Dearness Allowance (VDA) linked to Consumer Price Index Number, which is revised twice a year effective from 1st April and 1st October. The Central Government and twenty-seven States/UTs have adopted VDA as a component of minimum wage. Both the Central and the State Governments have been revising the minimum wages in respect of scheduled employments from time to time. Latest revised rates of minimum wages including VDA applicable in Central Sphere w.e.f. 01.10.2020 are at Table 5.1.

National Floor Level Minimum Wage

5.4 In order to have a uniform wage structure and to reduce the disparity in minimum wages across the country, the concept of National Floor Level Minimum Wage as a non-statutory measure was mooted on the basis of the recommendations of the National Commission on Rural Labour (NCRL) in 1991. On the basis of increase in the Consumer Price Index, the Central Government has revised the National Floor Level Minimum Wage from Rs. 160/- to Rs.176/- per day with effect from 01.06.2017.

Central Advisory Board (CAB)

5.5 The Central Government has reconstituted the Central Advisory Board (CAB) vide Notification No. S.O. 898 (E) dated 27th February, 2019 under Section 8 of the Minimum Wages Act, 1948. Present Chairman of the board is Hon’ble Member of Parliament, Shri Pankaj Chowdhary.

Minimum Wages Advisory Board (MWAB)

5.6 The Central Government has reconstituted the Minimum Wages Advisory Board (MWAB) vide Notification No. S.O. 527 (E) dated 29th January, 2019 under Section 7 of the Minimum Wages Act, 1948. Present Chairman of the Board is Hon’ble Minister of Labour & Employment (I/C).

5.7 The proposal for amendment of the Minimum Wages Act, 1948 for omission of Sec. 2(g) of the Act relating to definition of “scheduled employment” is not being pursued presently as the Payment of Bonus (Amended) Act, 2015 has been challenged in various High Courts. Department of Legal Affairs has opined to wait till vacation of stay and disposal of the writ petitions as definition of the “scheduled employment “ is common in both the Minimum Wages Act,1948 and the Payment of Bonus (Amendment) Act, 2015.

5.8 However, the Code on Wages, 2019 has been notified on 08.08.2019. The revised minimum wages will be determined as per the rules framed under the “Code on Wages, 2019".
Enforcement of the Minimum Wages Act, 1948

5.9 The Government is committed to enhance the welfare and well-being of farm labour and workers particularly those in the unorganized sector and to ensure implementation of the Minimum Wages Act, 1948. The enforcement of the Minimum Wages Act, 1948 is ensured at two levels. Minimum Wages under the Central sphere are enforced through Central Industrial Relations Machinery (CIRM). The position in respect of cases of enforcement by CIRM for the Year 2020-21 is provided in Table 5.2. In the State sphere, the State Enforcement Machinery ensures enforcement of the Minimum Wages Act, 1948. The position of enforcement of this Act in different States/UTs during 2019-20 is shown in Table 5.3.

The Wage Boards are tripartite in character in which representatives of workers, employers and independent members participate and finalize the recommendations. At present, there is provision for only two Wage Boards, one for the Working Journalists and the other for the Non-Journalist Newspaper Employees which are in operation as statutory Wage Boards. All other Wage Boards have ceased to exist.

The Working Journalists and Other Newspaper Employees (Conditions of Service) and Miscellaneous Provisions Act, 1955 has been subsumed in Occupational, Safety, Health and Working Conditions, 2020 (OSH Code) which has been notified on 29.09.2020.

The constitution and recommendations of the Majithia Wage Board were challenged through Writ Petitions filed by newspaper establishments before the Hon’ble Supreme Court. 6.1 The social security schemes in India cover only a small segment of the organized workforce, which may be defined as workers who are having a direct regular employer–employee relationship within an organization. The social security legislations in India derive their strength and spirit from the Directive Principles of the State Policy as contained in the Constitution of India. These provide for mandatory social security benefits either solely at the cost of the employers or on the basis of joint contribution of the employers and the employees. While protective entitlements accrue to the employees, the responsibilities for compliance largely rest with the employers.

Social Security Laws

6.2 The principal social security laws enacted for the organised sector in India are:

- The Employees' State Insurance Act, 1948;
- The Employees' Provident Funds & Miscellaneous Provisions Act, 1952 (Separate provident fund legislations exist for workers employed in coal mines and tea plantations in the state of Assam and for seamen);
- The Employee's Compensation Act, 1923;
- The Maternity Benefit Act, 1961;
- The Payment of Gratuity Act, 1972

Administration of Social Security Acts

Cash benefits under the Employees' State Insurance Act, 1948 are administered by the Central Government through the Employees' State Insurance Corporation (ESIC), whereas the State Governments and Union Territory Administrations are administering medical care alongwith ESIC under the Employees' State Insurance Act, 1948. The Employees' Provident Funds and Miscellaneous Provisions Act, 1952 is administered by the Government of India through the Employees' Provident Fund Organisation (EPFO). In mines and circus industry, the provisions of the Maternity Benefit Act, 1961 are being administered by the Central Government through the Chief Labour Commissioner (Central) and by the State Governments in factories, plantations and other establishments. The Payment of Gratuity Act, 1972 is administered by the Central Government in establishments under its control, establishments having branches in more than one State, major ports, mines, oil-fields and railway companies and by the State Governments and Union Territory Administrations in all other cases. This Act applies to factories and other establishments.

2. Facility for Online self-generation of UAN to employees joining in EPF covered establishments:

   To allow enrolment in the Schemes by workers themselves and also to generate intelligence data in regards to evasion in extension of membership and non-coverage of eligible establishments.

3. Instructions issued for accountability & transparency in assessments

It entails savings of cost, time and logistics as the parties to the dispute can attend hearing from remote location of their choice and the orders passed are available on Compliance e-Proceedings Portal

PRADHAN MANTRI ROJGAR PROTSAHAN YOJANA (PMRPY)

6.37 The Pradhan Mantri Rojgar Prottsahan Yojana (PMRPY) was launched on 9th of August, 2016.

6.38 In order to incentivise creation and generation of new jobs in formal sector, the Scheme provided that Government of India will pay the Employee's Pension Scheme (EPS'95) contribution of 8.33% for all new employees enrolling under the Employees' provident Fund Scheme,1952 (with EPFO) for the first three years of their employment. This was intended to incentivize the employers to recruit unemployed persons and also to formalize the employment. In order to channelize this intervention towards the target group of semi-skilled and unskilled workers, the Scheme was applicable to those with salary/wages up to Rs 15000/- per month and who had not worked in any establishment registered with EPFO prior to 01/04/2016 and did not have UAN prior to 01/04/2016. This Scheme had a dual benefit, where, on the one hand, the employer is incentivized for increasing the employment base of workers in the establishment, and on the other hand, a large number of workers will find jobs in such establishments. A direct benefit is that these workers will have access to social security benefits of the organized sector. To check duplication errors and prevent unscrupulous members from availing the benefit, it was mandated that the UAN of beneficiaries will be seeded with Aadhaar.

6.39 In case of the textile (apparel) sector where the establishment particularly dealt with manufacturing of wearing apparel, the employers were also eligible to get 3.67% of employers' share of EPF contribution paid by the Government (in addition to paying the EPS'95 contribution of 8.33%) under the Pradhan Mantri Paridhan Rojgar Prottsahan Yojana (PMPRPY).

6.40 With effect from 01/04/2018, the whole of employer's share of EPF & EPS contribution (10% or 12% as the case may be) is being provided to the employers for a period of three years in respect of the new employees and the existing employees for their remaining period of three years. Hence, the establishments and the employees therein which were getting twin benefits under both PMRPY & PMPRPY now are eligible for the full benefit of 12% (or 10%) under PMRPY since 01.04.2018. The terminal date for registration of beneficiary through establishment was 31st March, 2019.

6.41 The Scheme received good response from the employers. Though a little slow initially, but with the effective and large scale publicity by Head Office and the field offices of EPFO through conduct of Seminars and workshops with both the employers & Employers' Associations and employees & Union representatives, the response picked up fast and by the terminal date of registration, 185022 establishments had
registered with 13791049 employees under the scheme. Out of this, 145512 establishments had been benefitted in respect of 11805003 employees amounting to Rs. 43706034526/-. The year wise details are given as under:

**6.42** The Government had revised the Scheme guidelines dated 23.02.2017 vide their order dated 07.03.2019. This has produced the effect that for any establishment to avail upfront benefit under PMRPY for a particular wage month, it is now mandatory that the ECR is filed by 15th of the subsequent month.

**6.43** On the initiative of the ACC (HQ) PMRPY and the help of Concurrent Audit Cell as well as IS Division, a scrutiny of the data of beneficiaries under PMRPY scheme was taken up and the same was validated with the legacy data of members exiting before 01.04.2016 on different parameters like, PAN, Aadhar, Name, Father’s Name, Date of Birth and Gender of the beneficiaries. The outcome located a large member of duplicate cases who were suspected to be in-eligible beneficiaries under the PMRPY scheme. Such accounts were blocked and further flow of benefited under the PMRPY scheme in respect of the suspected UANs was disallowed.

**6.44** The lists of such cases were pushed into the logins of the respective establishments for verification and certification of their authenticity. A notice to the effect was also issued to all the related establishments by the respective RPFCs with a request to either confirm their authenticity or block those cases permanently.

**6.45** During the Financial Year 2019-20, the de-duplication exercise was completed involving verification of about 8.98 lakh UANs registered under PMRPY. Out of this, employers had availed benefit under PMRPY in lieu of a total of 7,62,013 ineligible member beneficiaries, amounting to a total of Rs.285.49 crores approx. Accordingly, a recovery module was prepared by the IS Division for recovering the principal amount along with interest and damages. The details of recovery effected from employers are as follows:-

**6.46** This exercise has led to massive savings for the Government of India, firstly by recovering the subsidy already disbursed in respect of ineligible beneficiaries, and secondly by
preventing further subsidy disbursal into such accounts. We can safely assume that the total savings would be in excess of Rs 500cr.

It enables an employee, and in case of death of an employee, his dependents, to get, at the cost of his employer, compensation for employment injury.

6.53 The object of the Act is to provide for the payment of compensation by employers to their employees for injury caused to them by accident while in employment. If an employee contracts an occupational disease while in employment, it is also treated under the Act as injury caused by accident.

Through the amendment carried out in the Act w.e.f. 18.01.2010, a clause has been inserted in the Act to enable the Government to raise the compensation, funeral expenses and wage limit by notification in the official Gazette. A new Section 25A has been added for the Commissioner to dispose of the matter relating to compensation under this Act within a period of three months from the date of reference and intimate the decision.

7.1 Labour Welfare Organisation under the Ministry of Labour & Employment administers Welfare Funds for the Welfare of (i) Beedi, (ii) Cine, Iron Ore / Manganese Ore / Chrome Ore, (iv) Limestone and Dolomite Mine Workers which were set up under various Acts of Parliament. The concept of Labour Welfare Fund was evolved in order to extend a measure of social assistance to workers in the unorganized sector. Towards this end, separate legislations were enacted by Parliament to set up five Welfare Funds to be administered by Ministry of Labour & Employment to provide medical care to workers employed in beedi industry, certain non-coal mines, and cine workers.

7.2 The scheme of Welfare Funds is outside the framework of specific employer and employee relationship in as much as the resources are raised by the Government on a non-contributory basis and delivery of welfare services affected without linkage to individual worker's contribution. Welfare funds, which follow a sectoral approach, are in addition to a large number of various other poverty alleviation and employment generation programmes, which follow a regional approach and for which most of these workers are eligible.

7.3 The basic objective of this scheme is to provide Health to more than 50 lakh poor and illiterate Beedi/ Cine/ Iron, Manganese, Chrome/ Limestone & Dolomite/ Mica Mine workers and their family members. These workers belong to unorganized and economically weaker sections of the society. These workers have very low literacy rate, poor health standards and low per capita income. The Scheme becomes a medium to enhance the living standards of this section of workers.

7.4 Health care facilities are being provided to Beedi, Cine and Non Coal Mine workers and to their families through 10 Hospitals and 286 Dispensaries located across the country.

7.5 Conducting welfare activities for Beedi / LSDM / MICA / IOMC / Cine workers and their dependents in the field of Health, Education and Housing.

Further, in cases where the trial has not been concluded, but the District Administration has arrived at a prima facie finding and proof of bondage, then the proposal for cash assistance shall not be stopped for want of details of conviction. However, final disbursement of cash assistance and non-cash assistance shall be made upon proof of bondage and other legal consequences as per judicial process.

- The Scheme provides for creation of a Bonded Labour Rehabilitation Fund at District level by each State with a permanent corpus of at least Rs. 10 lakh at the disposal of the District Magistrate for extending immediate help to the released bonded labourers.

- The above benefits are in addition to other land and housing elements provided by the States.

| 15. The Industrial Employment (Standing Orders) Act, 1946 | Provision regarding safeguards against sexual harassment of women workers at their work places. |
INTRODUCTION

12.1 Government of India stands committed to the elimination of child labour in the country. Our Constitution provides for protection of children from involvement in economic activities and avocations unsuited to their age and this is provided for in the Fundamental Rights (Article-24). Directive Principles of State Policy in the Constitution also strongly reiterate this commitment.

Constitutional Provisions:

Article 21A

Right to Education

The State shall provide free and compulsory education to all children of the age of 6 to 14 years in such manner as the State, by law, may determine.

Article 24

Prohibition of employment of children in factories, etc.

No child below the age of 14 years shall be employed in work in any factory or mine or engaged in any other hazardous employment.

Article 39

The State shall, in particular, direct its policy towards securing:

The health and strength of workers, men and women, and the tender age of children are not abused and that citizens are not forced by economic necessity to enter avocations unsuited to their age or strength.

12.2 Realizing the multifaceted nature of this problem, the Government has embarked on a holistic and multi-pronged approach to eliminate child labour from the country in a phased manner, beginning with children working in hazardous occupations and processes and progressively covering those working in other occupations also. On the one hand, it provides for legal action for enforcement purposes and on the other, focuses on general development programmes for the economic empowerment of the families of children as well as project based action in areas of high concentration of child labour.

National Child Labour Policy (NCLP)

12.3 Constitutional and legislative provisions providing protection to children against employment has been elaborated in the National Child Labour Policy announced in 1987. The policy addresses the complex issue of child labour in a comprehensive, holistic and integrated manner. The action plan under this policy is multi-pronged and mainly consists of:

(i) A legislative action plan;

(ii) Focuses on general development programmes for the benefit of the families of children; and

(iii) Project-based action plan in areas of high concentration of child labour.

Legal Protection of Children at Work

12.4 The Child and Adolescent Labour (Prohibition & Regulation) Act, 1986 as amended in 2016 inter-alia covers complete prohibition on employment or work of children below 14 years of age in all occupations and processes; linking the age of the prohibition of employment with the age for free and compulsory education under Right to
Education Act, 2009; prohibition on employment of adolescents (14 to 18 years of age) in hazardous occupations or processes and making stricter punishment for the employers contravening the provisions of the Act.

12.5 The Child Labour (Prohibition & Regulation) Amendment Rules, 2017, inter-alia, cover provision for prevention, rescue and rehabilitation and convergence, definition of “help” in the family enterprises owned by the family of the child and regulation of child artists to ensure their safety and security. The Rules also provides for District Nodal Officer (DNO) and Task Force under the chairmanship of District Magistrate to ensure that the provisions of the Act are properly enforced.

12.6 The Act defines the jurisdiction of both Central and State Governments in implementing the Act. The Central Government is the “appropriate Government” in relation to establishments under the control of the Central Government or a railway administration or a major port or a mine or oilfield. In all other cases, the State Government is the “appropriate Government”. The State Action Plan issued by the Ministry enumerates the actions arisen on the part of State Governments/UTs after enactment of the Amendment Act.

12.7 The Schedule of hazardous occupations and processes of the Act is divided in two parts namely ‘Part A’ covering a list of hazardous occupations and processes in which adolescents are prohibited to work and children are prohibited to help in family or family enterprises and ‘Part B’ covering an additional list of occupations and processes where children are prohibited to help in family or family enterprises (in addition to 'Part A'). The revised schedule of the Act is at Annexure 12.1.

12.8 After making suitable amendment in the Child Labour (Prohibition & Regulation) Act, in 2016 India ratified ILO conventions No.138 (minimum age of entry to employment) and 182 (worst form of child labour) on 13.06.2017. The ratification of the Convention No.138 and 182 would move a step ahead in the direction of achieving the goal of eradication of child labour from the country as it would be legally binding to comply with the provisions of the Conventions. By ratifying these two core conventions, India join majority of the countries who have adopted the legislation to prohibit and place severe restrictions on the employment and work of children.

12.9 Government is also laying lot of stress on the enforcement of the Child and Adolescent Labour (Prohibition & Regulation) Act, 1986. For violation of the provisions under the Act, during the last 7 years (2014-20) about 16.30 lakh inspections were carried out, resulting in approximately 10720 prosecutions out of which more than 4153 convictions were obtained.

12.10 The Standard Operating Procedure (SOP) framed by the Ministry works as a ready reckoner for trainers, practitioners and monitoring agencies to ensure complete prohibition of child labour and protection of adolescents from hazardous labour ultimately leading to Child Labour Free India. The online portal PENCIL (Platform for Effective Enforcement for No Child Labour) developed by the Ministry provide for a mechanism for both enforcement of the legislative provisions and effective implementation of the National Child Labour Project (NCLP). The Portal has component like Complaint Corner, State Government, NCLP, Child Tracking System, and Convergence. Now complaint of child labour can be registered electronically on the Portal to the concerned District Nodal Officers (DNOs) for taking prompt action.

Project Based action

12.11 Government had started the National Child Labour Project (NCLP) Scheme in 1988 to
rehabilitate working children in the child labour endemic districts of the country. As on date the Scheme is sanctioned in 324 districts of India. The list of districts in which Special Training Centres for child labour sanctioned under NCLP Scheme is at Table 12.2.

12.12 The NCLP scheme is a Central Sector scheme. Under the scheme, project societies are set up at the district level under the Chairpersonship of the Collector/District Magistrate for overseeing the implementation of the project. Under the NCLP Scheme, children in the age group of 9-14 years, withdrawn from work are put into Special Training Centers, where they are provided with bridge education, vocational training, mid-day meal, stipend, health-care facilities etc. and finally mainstreamed to the formal education system. Children in the age group of 5-8 years are directly linked to the formal education system through a close coordination with the Sarva Shiksha Abhiyan (SSA). Adolescent labour identified in the age group of 14 to 18 years working in hazardous occupations/processes are provided with vocational training opportunities through existing scheme of skill developments. In addition, efforts are also made to target the families of these children so as to cover them under various developmental and income/employment generating programmes of the Government to raise the economic standard of the family. Further, under the Scheme the Ministry funds awareness generation campaigns against the evils of child labour and enforcement of child labour laws through electronic and print media. At present, there are around 2705 NCLP training centers being run in the country with an enrolment of approximately 75 thousand children. Since inception about 13.50 lakh working children have already been mainstreamed to regular education system under the NCLP Scheme.

12.13 The year-wise budget allocation and expenditure incurred under the scheme during last five years are as under:

Monitoring of the NCLP Scheme

12.14 A Central Monitoring Committee under the Chairpersonship of Secretary, Ministry of Labour & Employment, exists for the overall supervision and monitoring, of the National Child Labour Projects. State Governments have also been advised to set up State Level Monitoring Committees similar to the Central Monitoring Committee.

12.15 To ensure involvement of State Government in implementation and monitoring of the NCLP Scheme and to make awareness generation activities to curb the menace of child labour it has been decided to form State Resource Centre (SRC) in every State/UT under the Chairmanship of State Labour Secretary. The PENCiL portal developed by the Ministry connect Central Governments, Districts and all Project Societies. The SRCS will coordinate and monitor the implementation of the NCLP Scheme in their respective State through PENCiL portal and also update its reports on the portal.

12.16 Ministry has developed Attendance Module for online attendance through Pencil portal for the children enrolled in the STCs under the NCLP Scheme and for speedy payment of
stipend through DBT to children.

**Revision of the NCLP Scheme**

**12.17** Government has enhanced the amount of stipend from Rs.150/- to Rs.400/- per month per child, rates of honorarium for volunteers and other parameters of the scheme. Further, the volunteers involved in the scheme would be provided incentive on the basis of their performance. This new initiative would motivate them to improve their quality and efficiency. Government has simplified the guidelines for implementation of NCLP Scheme and decided to expand the coverage of the Scheme in all districts having incidence of child labour. The Ministry of Labour & Employment has issued instructions to State Governments for conducting survey on child labour in such districts where there is a possibility of incidence of child labour.

**Convergence of Government Programmes**

**12.18** As Child labour is an outcome of various social economic problems such as poverty, economic backwardness, lack of access to basic services, illiteracy etc, the Government is taking very focused and concerted efforts towards the convergence of the on-going developmental schemes at the Central Government, State Government and the District level. Government of India initiatives to bestow certain rights and schemes for Employment Generation and Social Security are all part of the efforts to eliminate child labour. Under the revised NCLP guidelines, much emphasis has been given for its convergence with Serva Siksha Abhiyan (SSA) and other schemes. School uniforms and text books to each child in the NCLP schools (STCs) is sought for under SSA whereas nutritious cooked mid-day meal is ensured though Mid-Day Meal (MDM) scheme of the Government. The provision of primary health care including health check-ups and maintenance of health cards is also provided through School Health Programme under NRHM.

12.19 The educational rehabilitation of the children is also to be supplemented with economic rehabilitation of their families. The Government is adopting a sequential approach with focus on proper rehabilitation of not only the working children but their families also through revised NCLP scheme and convergence of various developmental schemes of the Government. Ministry of Women and Child Development is to provide for food and shelter to the children withdrawn from work through their schemes of Shelter Homes, etc as part of the Integrated Child Protection Programme. Ministry of Rural Development is to provide employment opportunities to the parents of the children near their place of residence under MGNREGA. Ministry of Consumer Affairs, Food and Public Distribution is to provide subsidized food grains under the Food Security Act.

**Re-alignment of NCLP Scheme with RTE Act, 2009**

12.20 With the enactment of Right to Education Act, 2009, there has been a need for realignment of the NCLP Scheme with the provisions of RTE Act, 2009. Ministry of Human Resource Development vide their letter No. 10-4/2009-EE.4 dated 2.7.2010 intimated that the NCLP Schools can serve as special training centers for un-enrolled and out of school children in accordance with the provisions of Section 4 of the RTE Act and Rule 5 of the Right of Children for free and compulsory education (RTE) Rules, 2010.

**Supreme Court Judgement on Child Labour**

12.21 Hon'ble Supreme Court of India has issued various directions to the State Governments from time to time. Some of these directions are:

- completion of survey of children working in hazardous employments;
- payment of compensation amounting to
Rs.20,000/- by the offending employer for every child employed in contravention of the provisions of the Act;

- giving alternative employment to an adult member of the child withdrawn from the hazardous occupations or payment of an amount of Rs.5,000/- for each child employed in hazardous employment by the appropriate Government;

- payment of interest on the corpus of Rs.25,000/- (Rs.20,000/- by the employer and Rs.5,000/- by the appropriate Government) to the family of the child withdrawn from work;

- provision of education in a suitable institution for the child withdrawn from work;

- constitution of the Child Labour Rehabilitation-cum-Welfare Fund;

- constitution of a separate cell in the Labour Department of the appropriate Government for the purpose of monitoring.

Provision of Child & Adolescent Labour Rehabilitation Fund:

12.22 In order to give the statutory back up for the rehabilitation Fund, the Government has made a provision in the Child Labour (Prohibition & Regulation) Amendment Act, 2016 for constitution of Child & Adolescent Labour Rehabilitation Fund at district level to ensure that child and adolescent is not only rescued but his future is secured by the amount collected in fund for his welfare and education. The amount of fine realized from the employer of the child or adolescent shall be credited in the rehabilitation Fund and an amount of fifteen thousand will also be credited by the appropriate Government for each of the child and adolescents rescued from the work.

### A. ACTIVITIES OF THE ORGANISATION

#### I. Safety and Health in Factories

13.8 The Factories Act, 1948 is the principal legislation for regulating various aspects relating to safety, health and welfare of workers employed in factories. This Act is a Central Enactment, which aims at protecting workers employed in factories from industrial and occupational hazards. The State Governments and Union Territory Administration frame their Rules under the Act and enforce provisions of the Act and respective rules through their Factory Inspectorates/Directorates.

13.9 The Ministry of Labour and Employment is accountable to the Parliament for proper enforcement of the Act. Uniformity in the application of the provisions of the Act in various States and Union Territories is achieved by circulating the Model Rules prepared by DGFASLI, which are incorporated by them in their State Factories Rules with necessary modifications to suit local needs. In the task of framing the Model Rules, the DGFASLI, on behalf of the Ministry of Labour and Employment, enlists the cooperation and involvement of the State Governments by convening annually a Conference of Chief Inspectors of Factories (CIF) of the states and UTs. The Conference discusses all matters relating to the administration of the Act as well as proposed amendments. Besides, the Conference also serves as a forum for discussion of the progress made in the techniques and methods of prevention of accidents and ill health in factories. The Model Rules are updated in consultation with the CIFs.

These schemes were modified in 1971, 1978 and again in 2007. The schemes presently in operation are as under:
1) **Prime Minister's Shram Awards (PMSA)**

13.21 The Prime Minister's Shram Awards (PMSA) were instituted in 1985, for the workers (as defined in Industrial Disputes Act, 1947) in recognition of their outstanding contributions in organizations both in public and private sector and who have distinguished record of performance, devotion to duty of a high order, specific contribution in the field of productivity, proven innovative abilities, presence of mind and exceptional courage and also to the workmen who have made supreme sacrifice of laying down their lives in the conscientious discharge of their duties.

13.22 It has been decided from the year 2004 onwards that the private sectors shall also be included within the ambit of Prime Minister's Shram Awards and the workers in the private sector units employing 500 or more workers and engaged in manufacturing and productive processes will be eligible to apply for these awards. The number of awards has been increased from 17 to 33. The awards, in order of sequence are Shram Ratna, Shram Bhushan, Shram Vir/Veerangana and Shram Shri/Devi. The recognition consists of a Sanad and cash award of Rs. Two lakh (1 award), Rs. One lakh (4 awards), Rs. 60,000 (12 awards) and Rs. 40,000 (16 awards) respectively.

2) **Vishwakarma Rashtriya Puraskar (VRP)**

13.23 VRP is awarded in recognition of outstanding suggestions given by a worker or group of workers and implemented by the management during the previous calendar year resulting improvement in quality, productivity and working conditions such as safety, health and environmental conservation in the industrial undertakings where “Suggestion Schemes” are in operation. It is designed to give recognition at the national level to outstanding suggestions resulting in

(i) Higher Productivity
(ii) Improvement in safety and working conditions
(iii) Savings in foreign exchange (import substitution as well as quality and safety of products)
(iv) Improvement in overall efficiency of the establishments.

  CLI, Mumbai - Engineering Industry.
A new Regional Labour Institute at Shillong is being set up to cater to the needs of the North-Eastern states.

It is proposed to establish Regional Labour Institute at Jammu catering services to Union Territories of Jammu & Kashmir, Ladakh and State of Himachal Pradesh.

**DIRECTORATE GENERAL OF MINES SAFETY (DGMS)**

13.26 Directorate General of Mines Safety (DGMS) is a subordinate office under the Ministry of Labour and Employment with its headquarters at Dhanbad (Jharkhand). It administers Safety, Welfare and Health of workers employed in mines in India and functions as a technical supplement to the Ministry in this area. Safety, Welfare and Health of workers employed in mines are the concern of Central Government (Entry 55 – Union List – Article 246) under the Constitution of India. These are regulated by the Mines Act, 1952 and the Rules and Regulations framed thereunder. Apart from administering the Mines Act and Subordinate Legislation thereunder, DGMS also administers some other allied legislation in the mining sector.

13.27 Minerals are depleting assets of a nation. Extraction of the same from below the surface of the earth is fraught with innumerable dangers. Mining has been and continues to be a hazardous profession and has rightly been deemed to be a war with the unpredictable forces of nature. The condition of roof and sides of underground mines can change without any prior indication. Dangers due to sudden inrush of water, release of lethal and inflammable gases or the fall of roof and side are inherent to mining and it is essentially because of such unpredictable dangers that mining is considered the most hazardous of all peace-time occupations.

13.28 Mineral constitutes the backbone of the economic growth of any nation and India has been eminently endowed with this gift of nature. Progressive industrialization witnessed the rise in demand. Growth of mining under the impact of successive Five Year Plans had been phenomenal. To take care of the enhanced targets, mechanization of mining activities has taken place. Large-scale mechanization led to higher risk to health and safety of the persons deployed in mines. Accordingly the role of the Directoren-Genera of Mines Safety (DGMS) has also broadened.

13.29 The Mines Act, Subordinate Legislation thereunder and other allied legislations administered by the Directorate are as follows:

**Mines Act, 1952**

- Coal Mines Pit Head Bath Rules, 1959.

**Electricity Act, 2003**

- Central Electricity Authority Regulations, 2010

**Allied Legislation**

- Factories Act, 1948: Chapters III & IV
• Manufacture, Storage & Import of Hazardous Chemicals Rules, 1989 under Environmental Protection Act, 1986
• The Coal Mines (Conservation & Development) Act, 1974

Role and Function of DGMS

**TREND OF ACCIDENT**

13.33 Trend in fatal and serious accidents in Coal mines are shown in Fig. 1. It can be seen
that the serious injury is constantly falling over the years. The death rate is fluctuating in between 0.1 and 0.3. To minimize the rate further, the Directorate General of Mines Safety has taken various measures, the analysis of that is given in Fig. 10 and Fig. 11.

SAFETY MEASURES

13.36 To ensure enforcement of necessary safety measures in mines, inspections and enquiries are carried out by the inspecting officers of DGMS. Apart from inspecting coal, metalliferous and oil mines, DGMS also undertakes investigation into all fatal accidents, certain serious accidents and dangerous occurrences and makes recommendations for remedial measures to prevent recurrence of similar mishaps. The Trend of accidents from 2001 to 2020 is shown in Table 13.5A. The trend in fatal accidents and fatality rate per 1000 persons employed on 10 yearly average basis from the year 1951 to 2010 and 2011-2019 is shown in Table 13.5B.

13.37 Powers under section 22 and 22A of the Mines Act, 1952, Regulation 116 of Coal Mines Regulations, 2017 and Regulation 108 of Metalliferous Mines Regulations, 1961 have been vested with DGMS to issue improvement notices and prohibitory orders to restrict or prohibit employment of persons in mines or part of mines. The number of inspections and enquiries carried out from the year 2006 onwards are shown in Table 13.6.

CIRCULARS

13.38 The DGMS issues circulars to the mining industry on occupational safety and health matters, which may have wide implications. Technical Circulars, Approval Circulars, General Circulars, General Instruction, Technical Instructions, Legislative Circular and Legislative instructions are issued as per requirement.

COMPETENCY TEST

13.39 To ensure that only competent persons are appointed as mine Managers, Surveyors, Overman, Foreman, etc., the DGMS on behalf of the Board of Mining Examinations constituted under the Coal Mines Regulation, 2017 and the Metalliferous Mines Regulation, 1961, conducts
examinations and issues certificates of competency. Details of applications received and competency certificates issued during the period from 01.04.2020 to 31.10.2020 have been given in Table 13.7

**APPROVAL OF MINES SAFETY EQUIPMENTS**

13.40 Approval, now online, is granted by Chief Inspector of Mines (Also designated as Director General of Mines Safety) to various equipments for use in mines to fulfill the statutory obligation enshrined under different provisions of Coal Mines Regulation, 2017, Metalliferous Mines Regulations, 1961, Oil Mines Regulations, 2017, Central Electricity Authority Regulations, 2010 and Mines Rescue Rules, 1985. The procedure of approval includes scrutiny of the applications mainly to find out the quality control system adopted by the manufacturers and their capacity to manufacture equipments/material etc., which will be capable of working safely under the hostile environment of the mines and remain operative during prolong use under adverse condition. The equipments also need to conform to the relevant Indian Standards and in case there is no Indian Standard, the standards of the country of origin (ISO/EN/DIN, etc.). The application should also include test certificates from approved laboratory as per the relevant standard. After the documents are scrutinized and found in order, field trial approval is granted to check the pit worthiness of the equipments in various mines. After the equipments are successfully tried in the field, the performance report from the concerned mine management is obtained. If the above reports are found satisfactory regular approval is granted for a specific period.

13.41 The equipments/machinery/appliances and materials requiring approval can be categorized into:-  
- Personal protective equipment.
- **Environmental monitoring instruments and devices.**
- Machinery and other equipments for carrying out mining operations and
- **Safety materials for use in underground mines.**

NATIONAL SAFETY AWARDS (MINES)

13.48 To promote a competitive spirit amongst mine operators for the betterment of safety standards in mines and give due recognition to outstanding safety performance at the national level, the Ministry of Labour & Employment, Government of India, instituted the National Safety Awards (Mines) in 1983 for the contest year 1982. The Ministry of Labour and Employment endeavors to reduce the risk of occupational diseases and casualty to persons employed in mines by drafting appropriate occupational health and safety legislation and setting standards, by overseeing compliance thereof and by taking up variety of promotional initiatives and awareness programmes which create an environment in which safety is given due priority. National Safety Awards (Mines) is one such promotional initiative. The NSA scheme is applicable to all mines which come under the purview of the Mines Act, 1952. For the contest year 2015 & 2016, total 73 National Safety Award (Mines) were presented by Hon’ble Vice President of India on 16th December 2019 at Vigyan Bhawan, New Delhi.

13.49 The applications received for National Safety Awards (Mines) for the contest years 2017 & 2018 is under process.

The growth of the mining activities from the year 2006 to 2015 is reflected in Table 13.1. Trend of accident in mines is reflected in Table 13.2. Table 13.3 reflects trend of accidents in Coal Mines cause wise. Table 13.4 reflects trends of accident in Non-Coal cause wise. Status of accidents and the resultant casualties in mines are important aspects related to mines safety. These are reflected in the Table 13.5 A and 13.5B.

13.51 DGMS conducts technical inspections and enquiries of the mines pertaining to safety as per established standards. The database related to all these is also maintained and the figures for various years are reflected in Table 13.6.

13.52 Table 13.7 reflects the number of applications received from various managers and other employees of mines and accordingly certificates of competency are issued.

13.54 The long term trend of fatality rate and decadal trend can be expressed through the above chart. The chart above outlines the trend in fatality rates per 1000 persons employed in coal and non-coal mines on a ten yearly average basis. The trend in coal mines show a steady decline over the years, however, the same cannot be said about the non-coal mines.

13.55 A closer analysis of accidents reveals that during 2019, fatal accidents in coal mines caused by dumpers, trucks, etc. contributed about 22% of the accidents, followed by about 15% caused by Non-transportation machinery. In non-coal during 2019, highest percentage of fatal accidents was due to fall of persons and it was about 22%. It was followed by the cause: Fall of sides which was 16%.

13.56 So far as serious accidents in coal mines during 2019 are concerned the major contributors were: Fall of persons and Fall of objects which were 27% and 14% respectively. In case of non-coal the major contributors were: Fall of persons and Fall of objects which were 23% and 17% respectively.

13.57 Figures 4&5 below show cause-wise fatal and serious accidents respectively in coal mines during the year 2019.

13.69 In Fig. 10, the trend is plotted taking number of inspection on primary axis. The trends of fatal and serious accidents are plotted on secondary axis taking number of accidents as dependent variable. It can be observed that over a long period, the trend of both fatal and serious accidents have gone down. For serious accidents, the gradient of decline is steeper than that of fatal accidents. The data shows a sharper decline in serious accident consequent upon a sharp increase in the number of inspection during the year 2015. On the basis of all the facts, we can infer that inspection have very positive impact on the improvement of overall safety in the coal mines (i.e. decline in the number of fatal and serious accidents).

13.70 In the above graph for enquiry, the trend is plotted taking number of enquiry on primary axis. The trends of fatal and serious accidents are plotted on secondary axis taking number of accidents as dependent variable. It can be observed that over a long period, the trend of both fatal and serious accidents have gone down i.e. the number of accidents has declined. For serious accidents the gradient of decline is steeper than that of fatal accident. The spread of number of enquiry over a long period is showing a slight increase. On the basis of all the facts, we can infer that enquiry have very positive impact on the improvement of overall safety in the coal mines (i.e. decline in the number of fatal and serious accidents).

NATIONAL CONFERENCE ON SAFETY IN MINES

13.72 The Conference on Safety in Mines is a tripartite forum at the national level in which the employers' representatives, the trade unions' representatives, the Government represented by Ministry of Labour & Employment, DGMS, various administrative ministries/ departments and State Governments and associated institutions, professional bodies, service associations, etc. take part. They review the status of safety in mines and the adequacy of existing measures in a spirit of mutual cooperation. The conference also suggests measures for further improvement in safety, welfare and health of mine workers. The first Conference was held in the year 1958. The eleventh conference was held on 4th & 5th July, 2013 at New Delhi during which three major issues (i) Small Scale Mining, (ii) Safety, health & welfare of Contractual workers & (iii) Surface & underground transportation machinery were deliberated in detail. A number of recommendations of these conferences have been given statutory backing and most of the others have been absorbed in management practices and policies. The conclusions and recommendations drawn during the conference have already been circulated to the mining industries for compliance.

ON-GOING SCHEMES
Strengthening of Systems & Infrastructure of DGMS (SSID):

13.73 Earlier during 2017-2020, A scheme namely Strengthening of System & Infrastructure of DGMS (SSID) (Formerly Mine Accidents Analysis and Modernization of Information Database (MAMID) and Strengthening of Infrastructure facilities and core functions of Directorate General of Mines Safety (SOCFOD) was existing but from the Year 2020-2021, there is no scheme approved and hence there is no target. However S&T division continue to function to achieve the desired goal.

**Approvals of Equipment, Apparatus & PPEs during 01.04.2020 to 31.10.2020:**
E-Governance in DGMS

13.75 E-Governance is understood as the use of Information and Communication Technology (ICT) at all the level of the Government in order to provide services to the citizens, interaction with business enterprises and communication and exchange of information between different agencies of the Government in a speedy, convenient efficient and transparent manner.

13.76 DGMS has started e-governance, utilizing IT in accordance with the recommendations of the Central Cabinet. In order to achieve this goal, an e-Governance Road map has been made, which has suggested implementing it in a phased manner giving importance on the establishment of formal organizational structure and project management structure.

DGMS has taken many IT initiatives during the year 2020-21 including the following:

a. The website of DGMS has been redesigned and customized for providing better user interface and transparency for different stakeholders.

b. In line with the Digital India initiative, software modules namely “Approval System”, “Permission/ Exemption/ Relaxation |System” have been developed and made live for use by the user industry. As on 31.10.2020 total of 7309 applications for Permission/ Exemption/Relaxation has been received online and 7011 has been dealt accordingly.

c. “National Safety Award (Mines) System” software module has been made live for online submission of applications for the NSA (Mines), evaluation and verification of data and preparation of awardees list. This has brought transparency and accountability in the system. For the contest years 2015 and 2016 total 290 and 378 online applications were received respectively and the National Safety Awards (Mines) function was organized on 16th December 2019 at Vigyan Bhawan, New Delhi. For the contest years 2017 and 2018 total of 315 and 223 applications have been received online for the respective years.

d. “Accidents & Statistics System” software module has been developed and made live on 01.08.2020. This system has enabled online, sending of accident intimation by the mine user, filing of accident inquiry reports by the inspecting officers of DGMS, follow up of the accident reports, finalization of action and dissemination of the relevant information and alerts to the mining industry for improving safety standards. Additionally, the system provides platform for online filing of statistical details by the mine users. As on 31.10.2020 total of 56 fatal accidents, 82 serious accidents and 12 dangerous occurrences have been reported on the web portal.

e. Module for online logging of daily activity by the officers has been developed to generate details of inspection, inquiry, follow up actions, promotional initiatives taken up on daily basis. This will facilitate online generation and reporting of monthly summary work by the officers and real time updating of dash board on the DGMS web site.

f. “Accounts & Budget System” software module has been developed as a part of “Digital DGMS.”

g. For online generation for inspection, the
modalities for “Risk-based inspection System” for coal mines have been developed and incorporated in the ShramSuvidha portal.

h. The digitization of old records including mines plans has been going in view of Digital India and secured record keeping. This will ensure secured record keeping and easy and timely access.

Recent initiatives in DGMS:

- The modalities for “Risk-based Inspection System” for coal mines have been developed. The inspections are generated for online assignment through shramsuvidha portal prioritizing on the actual risk rating of the coal mines of all categories. The software for the purpose has been developed by NIC and implemented by incorporating it in ShramSuvidha Portal. Risk-based inspection system for metalliferous mines is under progress.

- Vide Gazette Notification No. SO 506(E) published on 29.01.2019 as extraordinary part-II, section-3, subsection (ii), the restriction on the employment of women as per the provisions of the Mines Act, 1952, in any mine between the hours of 7 pm and 6 am in the mine above ground including opencast workings and in any mine belowground between the hours of 6 am and 7 pm in technical, supervisory and managerial work has been relaxed subject to the provision of adequate facilities and safeguards regarding their occupational safety, security and health.

- Directorate General of Mines Safety (DGMS), Ministry of Labour & Employment, Government of India and the Department of Natural Resources Mines and Energy, Queensland Government, Australia, through the Safety in Mines, Testing and Research Station (Simtars) have signed Memorandum of Understanding (MoU) for Sharing and dissemination of information on occupational safety and health, technological advancements and best practices, setting up a world class Occupational Safety and Health Academy having satellite centres and develop it as a training hub for persons engaged with mineral industry in India and its neighbourhood with a view to ensure safety at work place and equip industry in formulation of risk based Safety Management Plan and Emergency Evacuation systems.
asbestosis, coal worker's pneumoconiosis, silicosis etc. These diseases are preventable but once contracted; they are not curable. It is therefore, essential to prevent such diseases by controlling dust at the working places and conducting airborne dust surveys in mines at regular interval. The other precautions that are being taken include medical examinations and re-examination of mine workers to diagnose and detect the airborne dust diseases in its initial stages so that preventive, rehabilitative measures and medical cares are taken.

NATIONAL CAREER SERVICE CENTRES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

16.1 National Career Service Centres (NCSCs) for Scheduled Castes and Scheduled Tribes (erstwhile Coaching-cum-Guidance Centres for SC/ST) were established by Directorate General of Employment & Training (now Directorate General of Employment), Ministry of Labour & Employment, Govt. of India. These Centres provide services to educated SC/ST job seekers registered with Employment Exchanges for enhancing their employability through coaching, counselling and related training programmes. Some of the programmes organized by these Centres cover confidence building, individual guidance, mock interviews, training and practice in typing, shorthand and computer etc.

The applicants are provided guidance at the time of their registration with the Employment Exchange and also when they are sponsored against notified vacancies. The Centre also follows up with the employers for placement against vacancies reserved for the Scheduled Caste and Scheduled Tribe candidates. For further details on NCSC-SC/STs refer chapter 24.

Labour Welfare Funds/Schemes

16.2 A number of schemes providing medical, housing, educational, recreational, water supply and family welfare benefits are being implemented for workers [including SCs / STs persons and persons with Disabilities (PWDs) engaged in Mica Mines, Iron Ore, Manganese Ore and Chrome Ore Mines, Limestone and Dolomite Mines, Cine and Beedi workers under the five Welfare Funds, namely, Mica Mines Labour Welfare Fund; Limestone & Dolomite Mines Labour Welfare Fund; Iron Ore Mines, Manganese Ore and Chrome Ore Mines Labour Welfare Fund; Cine Workers Welfare Fund; and Beedi Workers Welfare fund set up by the Acts of parliament. No separate data is maintained with regard to budget/ expenditure/number of persons benefited in respect of SCs/STs Persons and Persons with Disabilities (PWDs).

Rehabilitation of Bonded Labour

16.3 In order to assist the State Governments in the task of rehabilitation of released Bonded Labourers, this Ministry of Labour & Employment launched a Centrally Sponsored Plan Scheme for rehabilitation of released bonded labour in May, 1978. The Government has revamped the Centrally Sponsored Plan Scheme for Rehabilitation of Bonded Labourers with effect from 17th May, 2016. The revamped scheme is known as 'Central Sector Scheme for Rehabilitation of Bonded Labourer - 2016'. The revised scheme is a Central Sector Scheme, the State Government is not required to pay any matching contribution for the purpose of cash rehabilitation assistance. Financial assistance has been increased from Rs. 20,000/- to one lakh per adult male beneficiary, Rs. 2 lakh for special category beneficiaries such as children including orphans or those rescued from organized & forced begging rings or other forms of forced child labour, and woman and Rs. 3 lakh in cases of bonded or forced labour involving extreme cases of deprivation or marginalization such as trans-genders, or woman or children rescued from ostensible sexual exploitation such as brothels, massage parlours, placement agencies etc., or trafficking, or in cases of differently abled
persons, or in situations where the District Magistrate deems fit. *Till date, a sum of Rs. 9617.67 Lakhs has been released under the scheme to the State Governments for rehabilitation of 2,93,725 bonded labourers.* As per the report of the National Commission on Rural Labour, 1991, 86.6% of the identified bonded labour belongs to SC/ST category, so benefits of the scheme are flowing predominantly to these categories of bonded labourers.

17.2 The two main wings of Labour Bureau are at Chandigarh and Shimla and its five Regional offices are at Ahmedabad, Kolkata, Chennai, Kanpur and Guwahati and a Sub-Regional office at Mumbai under Ahmedabad Regional Office.

**Major Activities and Achievements of Labour Bureau**

I. **Consumer Price Indices**

17.3 The Consumer Price Indices compiled & maintained by Labour Bureau on a regular monthly basis are as under:-

(a) **Consumer Price Index Numbers for Industrial Workers (CPI-IW) base 2001=100**

17.4 Consumer Price Index Numbers for Industrial Workers (CPI-IW) which measure the rate of change in prices of a fixed basket of goods and services consumed by the working class population are compiled and maintained by Labour Bureau.

17.5 Labour Bureau compiled and released the **Consumer Price Index Numbers for Industrial Workers** on base: 2001=100 from January, 2006 to August, 2020. The index on New Base (2016=100) is being released by Labour Bureau from September, 2020. The index numbers are released on the last working day of every succeeding month through Press Release. These are also published in the Bureau's monthly publication “Indian Labour Journal” besides
putting them on the Bureau’s Website www.labourbureaunew.gov.in. A comparative Statement of variations in Consumer Price Indices (CPI) for Industrial Workers (IW) is given in Table 17.1 (i) and 17.1 (ii). The Annual Report on CPI Numbers for Industrial Workers (Base: 2001 = 100) for the year 2018 has been released.

(b) Consumer Price Index Numbers for Rural Labourers and for Agricultural Labourers [CPI (RL/AL)] (Base: 1986-87 = 100)

17.6 Based on the retail price data collected from 600 sample villages, CPI Numbers for Rural labourers and its subset Agricultural Labourers are being compiled for 20 States and All-India on base 1986-87=100 on a monthly basis.

17.7 Labour Bureau also compiled & released CPI Numbers for Agricultural & Rural Labour (Base 1986-87=100). The comparative statement of annual variation in CPI-AL and CPI-RL is presented in Table 17.2.

(c) Base Updation of Price Index Numbers for Industrial Workers (CPI-IW)

17.8 Labour Bureau has completed the process of updating the CPI-IW series to a more recent base period i.e. 2016=100. A total of 88 centres have been covered in the new series of CPI-IW, which have been approved by the Standing Tripartite Committee (STC) of Ministry of Labour & Employment and Group of Technical Advisory Committee on Statistics of Prices and Cost of Living (TAC on SPCL). In the new series of CPI-IW, a sample size of 48384 working class families belonging to existing 7 sectors (Factories, Mines, Plantation, Railways, Public Motor Transport Undertakings, Electricity Generation and Distribution, Ports and Docks) has been covered under the Working Class Family Income & Expenditure Survey and 18816 working class families belonging to these sectors have been covered under Repeat House Rent Survey. The new Series was also placed before the Standing Tripartite Committee (STC) and National Tripartite Forum represented by Apex Level Trade Union Leaders, Employer’s Associations Representatives and State Representatives both from Central Ministries as well as States.

17.9 Shri Santosh Kumar Gangwar, Hon’ble Minister of State (Independent Charge) for Labour & Employment released the new series of Consumer Price Index for Industrial Workers (CPI-IW) with base year 2016 in the presence of Shri Apurva Chandra, Secretary (L&E) and Shri D. P. S. Negi, Senior Labour & Employment Advisor and Director General, Labour Bureau on 22nd October, 2020 at New Delhi. The new series will replace the existing series with base 2001 = 100. Shri Gangwar also unveiled the “Report on New Series of Consumer Price Index for Industrial Workers (CPI-IW) (Base 2016 = 100)”, an important publication meant to give insights into the concepts, definitions and methodology related to the new series of CPI-IW with 2016 as base year.

(d) Base Updation of Consumer Price Index Numbers for Rural Labourers and for Agricultural Labourers [CPI (RL/AL)]

17.10 In pursuance of the recommenda
tions/suggestions made by the various
committees/commissions such as Committee of Secretaries, National Statistical Commission (NSC), 2nd National Commission on Labour, Niti Aayog (erstwhile Planning Commission) and Technical Advisory Committee on Statistics of Prices of Cost of Living (TAC on SPCL), Labour Bureau has initiated the process of base updation of CPI-AL and RL. The coverage of the new series of CPI-AL/RL would extend to all States and Union Territories except Chandigarh (fully urbanized) and Ladakh. The base period for the new series of CPI-AL and RL would be 2019. Market survey with the proposed base year 2019 is almost complete and price data is presently being scrutinized by Labour Bureau. First round scrutiny of data is complete and clarification received from field is being scrutinized further for second round of scrutiny. Fixation of specifications / units of items and collection of prices is under progress. In the absence of 75th Round of NSS data, approval of the Technical Advisory Committee on Statistics of Prices and Cost of Living (TAC on SPCL) has been obtained to use 68th round of NSS data. The weights would be generated using 68th round of NSS data for index compilation. The compilation of index numbers would start once the weights are approved by the TAC on SPCL.

(e) Statutory and Voluntary Returns

17.11 Labour Bureau has been entrusted with the work of collection, compilation and dissemination of statistics relating to various aspects of Labour, such as Industrial Relations, labour welfare, Social Security, Safety Measures, inspections, Inspection Machinery etc., and such statistics get generated as a by-product of the administration, enforcement and implementation of 11 selected Labour Acts. Returns under 10 Labour Acts are statutory and for one act it is voluntary. The Central Labour Commissioner (CLC), the State Labour Commissioner (SLCs) and States Chief Inspector of Factories (CIFs) administer/enforce these Acts and hence the Primary source of Administrative Labour Statistics. Based on the information/data furnished by these agencies, Labour Bureau brings out Annual Reports/Reviews on working of these Acts.

17.12 Ministry of Labour & Employment has amalgamated all Central Labour Laws / Acts into four labour codes. Factory Act, 1948, Plantation Labour Act, 1951 and Motor Transport Workers Act, 1961 have been covered under the Occupational Safety, Health and Working Condition Code. Trade Union Act, 1926, Industrial Employment (Standing Orders) Act 1946 and Industrial Disputes Act, 1947 have been covered under the Industrial Relations Code. Minimum Wages Act, 1948 and Payment of Wages Act, 1936 have been covered under the Wage Code whereas Employees’ Compensation Act, 1923 and Maternity Benefit Act, 1961 have been subsumed under the Social Security Code. In addition to the present mandate of Labour Bureau which is limited to 11 labour acts only, it has now been proposed to designate Labour Bureau as the Nodal agency for collation of administrative statistics for labour returns under all the four Labour Codes.

(f) Field Surveys and Studies

17.13 Labour Bureau conducts periodic/ad-hoc surveys on different aspects of labour
such as: i) Employment, ii) Wages and Earnings, iii) Working and Living Conditions of workers engaged in the Organized and Unorganized sectors of the economy to bridge the gap in the availability of labour statistics. Labour Bureau also compiles wage rate data for 25 agricultural and non-agricultural occupations regularly every month from 600 sample villages of 20 States / UTs. Achievements during the reference year are as under:

- **Wage rate statistics was compiled upto the month of June, 2020** and published in the Indian Labour Journal.

  (g) **Occupational Wage Survey**

  17.14 Different rounds of Occupational Wage Surveys (OWS) are being conducted with the objective of providing data/information required to obtain Occupation-wise data on employment, wage rates and dearness allowance for building up Wage Rate Index Numbers.

  17.15 Under the 7th Round of OWS, total ten reports consisting of 56 industries have been prepared and all the reports viz. Five Textile Industries, Textile Garment Industry, Three Plantation Industries, Tea Processing Industry, Mining Industry, Ten Manufacturing Industries, Ten Engineering Industries, Nine Engineering Industries, Nine Manufacturing Industries and Four Service Sector Industries, duly approved by the Ministry, have been released by Labour Bureau. The 8th round of Occupational Wage Survey is being planned and is expected to start shortly.

  (h) **Contract Labour Survey**

  17.16 Contract Labour Survey aims at studying the extent & nature of problems faced by contract labour and working conditions of contract labour employed in different segments of industries vis-a-vis the provisions under the Contract Labour (Regulation & Abolition) Act, 1970. Information collected under the survey relates to contractor wise employment of contract labour, jobs performed by such labour, reasons for preferring employment of contract labour, working conditions, wages & allowances, fines & deductions, welfare facilities, social security, industrial relations, maintenance of records by the contractor, etc.

  17.17 So far, 47 Surveys have been conducted in 39 industries. **The Field work for Contract Labour survey in Food Corporation of India has been completed and scrutiny of schedules is presently in progress.**

Blue wheel is a cog wheel representing work, choice of blue colour signifies that we deal with blue collar workers, the graph is not going up words alone as in real world data has ups & downs because it captures ground reality. A tricolored Graph, matching the colours of the National flag, along with wheat ears, signifying the fruit of rural agricultural labour, have been beautifully placed in the logo.

iii. Auto-settlement of EPF advance claims:
Besides EPF advance to fight COVID-19 pandemic, EPFO launched auto-settlement of advance claims facility for the PF members having their UAN seeded with complete KYC. Though, this initiative was introduced on pilot basis in 2019, with onset of pandemic and consequent lockdown in March, 2020, this facility was launched across India. This facility ensured extension of service to subscribers with minimal human intervention. Already 49.75 lakh claims have been settled through auto-mode (Dec, 20).

iv. Multi-location settlement of claims:
The lockdown due to Covid-19 and high impact on metropolitan cities resulted in huge pendency of claims in larger Regional Offices of EPFO due to restrictions of movement of staff. As a part of the initiative EPFO launched a multi-location claim settlement facility ensuring continuity of services by allowing EPFO offices to settle online claims from any of its Regional Office across the country. This also enabled speedy settlement of claims by optimum utilization of manpower of EPFO Offices by transferring huge load of bigger offices to smaller offices having lesser pendency.

v. Facility for Jeevan Pramaan anytime in a year: Pensioners availing pension under Employees' Pension Scheme, 1995 were required to submit their Life certificate /Jeevan Pramaan every year in the month of November. xi. Extension of Life certificate validity:

In an effort to keep the most vulnerable and elderly pensioners of EPFO away from the risk of Covid-19, the life certificate validity period for last year’s LC has been extended up to February 2021.

C. IT INITIATIVES IN ESIC-

19.4 Significant progress has been made in the field of Information and Communication Technology (ICT) by ESIC during 2019-20. ESIC has taken over strategic control and responsibilities in managing its own IT affairs w. e. f. Sep 2019. After the contract with the previous service provider for maintaining “Panchdeep” the e-governance project of ESIC was over a new service provider was handed over the project with curtailed responsibilities. The scope of project was redefined and was modified for managing all central Applications (including ERP, Insurance and Dhanwantri, etc.), along with Data Centre (DC) and Data Recovery Centre (DRC) maintenance and business continuity. All field activities including management of computer infrastructure, Network & Bandwidth provisioning and central activities such as renewal of licences, maintenance / technical contracts, subscriptions of all tangible and intangible central assets at DC / DR has been taken over by ESIC.

19.5 SALIENT FEATURES

• ESIC has actively started facilitating renewal of annual support of applications & software licenses of the existing Software assets, Technical support for Hardware assets and procurement of newer tools in Data Centre and Data Recovery Centre. In addition to these, any new license/assets required for Project ‘Panchdeep’ are also being procured and provided by ESIC. Earlier, procurement and provisioning of licenses was completely in the domain of the System Integrator/Service Provider.

• ESIC is in the process of deploying a professional Entity / IT Consulting body to provide strategic guidance for moving forward to Version 2.0 of its IT Project that may involve moving the on-premises DC/DR services and in-house applications of IT services to Cloud Platform for acquiring completely managed services.

• In pursuance of having better monitoring and control over service provider, the Project Monitoring Unit is being strengthened and for this necessary process has already been initiated.

• For getting strategic consulting support on IT matters, ESIC is in the process of engaging IT Consultants in specific domains.

• IT Facility management at the field offices are being done through availing services of IT Managers and IT Assistants on contractual basis through agencies
• Migration to alternate connectivity like ILL (Internet Leases Line) and Digital India Infoway (DII) solution under National Knowledge Network (NKN), etc. have been initiated.

• SD-WAN routers devices are being installed in field locations in replacement of the 10 years old Normal Routers. As on date, around 1500 sites have been already migrated to SD-WAN system.

19.6 VALUE-ADDED CHANGES IMPLEMENTED IN 'PANCHDEEP'

• The Atal Bimit Vyakti Kalyan Yojana (ABVKY) Scheme for those Insured Persons who are rendered unemployed has been made simpler & easier. Now, the beneficiaries need not visit their ex-employers for validation of their Claim applications, nor they are required to visit any of the ESIC offices, in person, to submit claim documents. They have also been empowered with the tools of 'self-declaration', 'self-attestation', 'online-uploading' thus abolishing the earlier requirement of Non-Judicial Stamp Papers, certification by a Notary and physical presence, in line with the vision of the Prime Minister. These small changes in the process not only saved the beneficiaries of monetary expenses, but also prevented them of unwarranted hassles in the current situation of Covid-19 Pandemic. The eligibility conditions have been drastically relaxed for those IPs rendered jobless due to the Covid-19 Pandemic so that more and more of the beneficiaries get relief under the scheme to mitigate the hardship during this difficult period of national disaster. The relief amount has been doubled and incorporated for auto-calculation by the system defined logic. The ease of making an online claim and getting relief thereafter has been grossly simplified. Necessary validations and system defined verifications have been implemented for lesser human intervention and instantaneous relief amount calculation as well as direct transfer of relief money to the beneficiary's bank account.

• Integration of Panchdeep Module with PMJAY for real-time eligibility check before availing services through 'Ayushman Bharat' in specified two districts. The scheme is being extended to 50 more districts for the benefit of the Insured Persons, to be implemented by Dec 2020.

• The revised & enhanced rate for compensation for Permanent Disablement Benefit and Dependent Benefit under the ESI Scheme have been successfully implemented in IT System (Insurance and Benefit Modules) so as to help disburse the arrear payment electronically to the eligible and bonafide beneficiaries as per the revised benefit guidelines.

• Employers and Entities of Jammu & Kashmir region were given special relaxation to file contribution of the beneficiaries for the past period of 01/04/2019 to 30/09/2019, as a special measure to tackle the hardship during the ongoing geo-political situation. System was primed to take cognizance of such selective relaxations.

• A performance Dashboard is published in www.esic.in depicting status on various Key Performance Indicators, adding value to the organisation's credibility and deliverables.

• For the target delivery of benefits to the
bona fide Beneficiaries and for dissemination of information from time to time, the Mobile number seeding of the newly registered employees were made mandatory in ESIC database, w. e. f. 01.07.2020. The authentication of Mobile Numbers is done through a mechanism of validation through the OTPs.

- The seeding of Bank Account details of the newly registered employees was made mandatory in ESIC database, w. e. f. 01.07.2020. The system automatically validates the IFS Codes and fetches credentials of the bank for uniform data seeding. System prevents duplication of bank account credentials and thus ensures target delivery of cash benefits by removing bogus data. Online verification of bank account credentials of beneficiaries through NPCI is in the advanced stage of integration.

- For the ease of doing business, the new entities which are getting registered as companies through the Agile Platform of Ministry of Corporate Affairs are also facilitated to register under ESI Act, in a single go through common transactions. The integration of Panchdeep with MCA portal has been made effective.

- E-Payment facility has been provisioned for direct disbursing of benefits to the bank accounts of beneficiaries through SBI gateway.

- For the convenience of the Employers / establishments, ESIC has integrated with different Banks (SBI, BoB, IDBI, Axis, Canara, HDFC, etc.) for online payment of contribution by the employers using Internet Banking (Corporate and Retail) for Real time remittance. Integration with other Banks is in the process for enabling employers to make contribution payment through bank of their choice.

- UTI-ITSL has been a partner of ESIC as 3rd party Bill Processing Agency for processing and scrutinising online claims and bills of private hospitals from where ESI procures medical services in special cases mainly for tertiary care services. The software module of UTI-ITSL has been successfully integrated with various modules of Panchdeep. This has facilitated online referral to processing to scrutinising and clearing of payment against the bills raised, resulting in transparency, promptness and efficiency of providing cashless medical services of ESIC, in case ESIC desires to procure a service for the beneficiary that is not-available inhouse.

- The 'Ask An Appointment' Mobile App has been fortified with provisions for seeking appointment in Hospitals. A beneficiary, who has been referred to a hospital online by a dispensary doctor, can seek an appointment for registration in OPD of a referred department of a referred hospital, on a particular day. Furthermore, if a doctor in a hospital has advised a beneficiary for a review visit (follow up) online, the patient can seek an appointment to prevent waste of time in queues. Appointment facility through a mobile app was earlier available for seeking appointment in dispensaries only. Presently, Delhi State (DMD) has implemented this facility in dispensaries. Hospitals are being trained to keep up. The States of Telangana and Goa are also scheduling for training and planning to adopt the Appointment module. These hospitals/states are about to make necessary configurations in the holiday master for the state/hospital/dispensary, defining time slots based on resource availability in each of the departments/hospitals/dispensaries and the days
when these departments function/operate/ The one-time configuration for each dispensary/hospital is resource intensive and is dependent on the adoption/ownership of the controlling office. However, the module is Nation-Ready.

GB.340/POL/1: The Role of the ILO in addressing climate change and a just transition for all

21.8 Ms. Vibha Bhalla, Joint Secretary, in her intervention emphasized that the level of development across countries is different, therefore job loss and job creation due to transition to low carbon economy would differ across countries and regions. She stressed that that ILO must engage in region specific quantitative research on the impact of the transition to a low carbon economy on the labour markets; clearly identifying the nature and the scale of changes.

21.9 Implementation support in the form of finance, technology and capacity building as agreed under UNFCCC must be encouraged to maintain and achieve the commitments under Nationally Determined Contributions and ensure adapting to adverse impacts of climate change. India has favored an appropriate international response to deal with the issue of climate change, for both pre-2020 and post-2020 climate actions based on the principles of equity and Common but Differentiated Responsibilities and Respective Capabilities.

21.10 India in its intervention supported ILO's follow-up action on youth employment through knowledge development and dissemination strategy. It was suggested that ILO may take research on informal labour market conditions and ways to enhance formality of workers. Research on core causes of widespread informal employment of youth in developing countries can help the constituents in framing policies to overcome these problems and increase formal employment among young workers.

21.11 There is a need to focus on the new forms of work in particular the gig and the platform economy that mostly engages the youth. Adequate social protection should be provided to such workers. We have enacted the Code on Social Security, 2020 that envisages the extension of social security to all workers.
including gig and platform workers. In order to accelerate the process of inclusion of gig and platform workers, we have defined gig workers, platform workers and created an overarching national level tripartite body to formulate policies for medical, pension, sickness benefits, etc. for gig and platform workers.

India welcomed the recent legislation Law no. 17 enacted by the Qatar government that fixes a non-discriminatory minimum wage and appreciated the efforts of the government taken to strengthen the Wage Payment System (WPS).

21.13 The government of Qatar has demonstrated a strong commitment for supporting and improving the labour market by adopting Law No. 19 of 2020 that ends the requirement for workers to obtain their employer's permission to change jobs thereby facilitating the worker's mobility in the local labour market. The achievements of Qatari government conspicuously exemplify the benefits of a constructive dialogue and effective collaboration between Governments, workers and employers together with the ILO.

GB.340/INS/12: Progress report on the follow-up to the resolution concerning remaining measures on the subject of Myanmar adopted by the Conference at its 102nd Session (2013)

21.14 First Secretary, PMI in the intervention welcomed the efforts made by the government of Myanmar on labour related issues in recent years, as is also reflected in the DG's report. The government of Myanmar has demonstrated a strong commitment for eliminating forced labour and promoting and protecting labour rights in the country including through a new Action Plan on the Elimination of Forced Labour and encourage the ILO to continue to provide technical assistance to Myanmar.

ILO and the international community should continue to support the government of Myanmar in its efforts to strengthen employment and labour market policies, especially in addressing Covid-19 challenges that workers are facing at present.

GB.340/INS/14: Complaint concerning non-observance by Bangladesh of the Labour Inspection Convention, 1947 (No. 81), the Freedom of Association and Protection of the Right to Organise Convention,1948 (No. 87), and the Right to Organise and Collective Bargaining Convention, 1949 (No. 98).

21.15 The statement on this agenda item was delivered by PMI, Geneva. India in its intervention appreciated the comprehensive response filed by the government of Bangladesh against all the allegations made in the complaint.

21.16 In the last decade the labour and employment sector of Bangladesh has gone through massive legal and administrative reforms, supported by numerous concrete actions, including those relating to trade union activities, workplace safety, wages, skills development and labour welfare.

21.17 Government of Bangladesh should be given additional time so that the intended consequences of these reforms percolate to the beneficiaries, especially in wake of the complications that have arisen due to the COVID19. Appreciating the government of Bangladesh’s strong commitment to working closely with the social partners in further promoting labour rights in the country; it was recommended that government of Bangladesh should be given sufficient opportunity to resolve all the issues through regular supervisory mechanisms of the ILO.
High Level Section

GB.340/HL/2: COVID-19 and the World of Work

21.18 Ms. Vibha Bhalla, Joint Secretary, in her intervention emphasized that moving beyond the crisis is essential and an approach of building back better needs to be adopted. Health and welfare of our workers has remained our priority. Government of India introduced financial support and other relief measures for the most affected and the vulnerable sections in our country. The poor, the women, the migrant workers, the small enterprises and the farmers have remained our focus.

21.19 There is a need to think of a sustainable strategy that involves a more direct and human centered approach for improving levels of economic activity, household income, productivity, employment, social protection, skilling and decent working conditions. Government of India's strategy has been to focus on five pillars namely economy, infrastructure, technology driven arrangements; vibrant demography, and demand.

India supported the focus on sustainable social protection systems, infrastructure and enterprise and stressed that the focus should also be on the micro, medium and small enterprises and the Cooperative Sector. ILO should also engage in research to understand the relative employment effects of different infrastructure and industrial financing options for SDG implementation. These research outcomes would help ILO and member countries in shaping the social dialogue and the policy discourse.

21.20 With the world of work witnessing tremendous changes and COVID-19 creating uncertainties, the challenge is to ensure decent work in respect of working conditions and protection in sectors such as the care economy, digital economy and informal economy, where largely women are employed. ILO should focus on creating a knowledge sharing center that records the best practices and experiences of member countries in these sectors.
