CHAPTER-II

ACCOUNTING ORGANISATION OF THE MINISTRY OF LABOUR & EMPLOYMENT

2.1 The Secretary is the Chief Accounting Authority of the Ministry and performs duties with the assistance of Additional Secretary & Financial Adviser (AS& FA) and Chief Controller of Accounts. The Accounting Organisation of the Ministry of Labour & Employment is headed by the Chief Controller of Accounts who is assisted by a Dy. Controller of Accounts, 7 Pay and Accounts Offices and a Principal Accounts Office as mentioned below:

2.2 E-governance

Major e-initiatives have been taken up by office of the Chief Controller of Accounts as per guidance of CGA are discussed below:-

2.2.1 E-lekha

E-lekha is an e-governance initiative of the Controller General of Accounts and also the value added integrated services from the COMPACT. It is expected to facilitate control over budget allocation, bring about complete transparency in the working of the PAOs, and speed & accuracy in the compilation of accounts. This web enabled application provides data after a daily closing is affected on the COMPACT server at the end of each day at each PAO. It also facilitates the monitoring and management of Fiscal health of the several Ministries and Departments of the Government of India. The Core Accounting Solutions (CAS) would provide an accounting software solution for the Civil Accounts Organization with the specific objective of leveraging the existing IT capability and application software functionalities for developing an integrated accounting system for all levels of usage with seamless interface and data communication; Providing a structured plan for connectivity issues linking the PAOs with PrAOs, CGA and external entities wherever possible; Minimizing the transaction costs and reduce cheque float time by adopting electronic payment systems; and Ensuring a secure single point data capture of transaction data thereby eliminating duplication of work and data inconsistency.

2.2.2 Benefits of e-Lekha :

- Status of bills
- Compiled Payment and Receipt data
- Major Head-wise Expenditure and Receipts
- Budget V/s Expenditure with various combinations
- Grant wise Central Transactions
- Cheque Reconciliation
- Status of Pension cases
- Maintenance of GPF ledgers

2.2.3 Features & Requirements:

- Internet connectivity at each PAO for daily account abstract upload.
- Data Access through user Authentication.
- Day closing and generation of complied abstract for each PAO
- Simple user interface to update data at Central Database Server from each PAO.

2.3 E-payment system

The Office of the Controller General of Accounts (CGA), Department of Expenditure, Ministry of Finance has developed a fully secured Government e-payment system for direct credit of dues from the Government of India into the account of beneficiaries using digitally signed electronic advice (e-advice) through the 'Government e-payment Gateway' (GePG). GePG is a portal which enables the successful delivery payment services from Pay & Accounts Offices (PAOs) for online payment into beneficiaries' accounts in a seamless manner under a secured environment. GePG serves as middleware between COMPACT (Computerized Payment and Accounts) application at PAOs and the Core Banking Solution (CBS) of the agency banks/RBI to facilitate paperless transaction, reducing overall transaction cost and promoting green banking. The digitally signed e-advice uploaded by the PAOs on

GePG portal are downloaded by the concerned banks to credit the beneficiaries' accounts through CBS/NEFT/RTGS as applicable. The e-payment system saves time and efforts in effecting payments and facilitates elimination of physical cheques and their manual processing. Further the constraints of manual deposit of cheque by the payees into their bank account have also eliminated. The system also has online reconciliation of transactions and efficient compilation of payment accounts. E-payment system became operational w.e.f. 1st April, 2012 in all the Pay & Accounts Offices of this Ministry. As per the guidelines issued by the Office of the CGA the payments of ` 5000/- and above presently are being made through e-payment system to the contractors, suppliers, grantee, loaner institutions, Government servants (other than salary) etc.

2.4 Public Financial Management System (PFMS)

Initially Public Financial Management System (PFMS) started as a Plan scheme named CPSMS of the Planning Commission in 2008-09 as a pilot in four States of Madhya Pradesh, Bihar, Punjab and Mizoram for four Flagship schemes e.g. MGNREGS, NRHM, SSA and PMGSY. In December, 2013 the Union Cabinet approved the national roll out of PFMS for all States.

The mandate given to PFMS by Cabinet decision is to provide:-

- A financial management platform for all plan schemes, a database of all recipient agencies, integration with core banking solution of banks handling plan funds, integration with State Treasuries and efficient and effective tracking of fund flow to the lowest level of implementation for plan scheme of the Government.
- To provide information across all plan schemes/ implementation agencies in the country on fund utilization leading to better monitoring, review and decision support system to enhance public accountability in the implementation of plan schemes.
- To result in effectiveness and economy in Public Finance Management through better cash management for Government transparency in public expenditure and real-time information on resource availability and utilization across schemes. The roll-out will also result in improved programme administration and management, reduction of float in the system, direct payment to beneficiaries and greater transparency and accountability in the use of public funds.

Expenditure management and fund utilisation through PFMS (EAT) module: After completion of registration process, the Agencies can login to PFMS portal and can create Maker and Checker type users to use Expenditure-Advance-Transfer modules (EAT module) for transferring funds or advances to lower level Agencies and e-payments to vendors, employees and beneficiaries for financial MIS. This is an extremely important functional module of PFMS for monitoring the ultimate utilisation of funds.

2.4.1 Objectives of PFMS:

1. Establishment of an efficient fund management system:
2. Establishment of an effective expenditure information network:
3. Reforms in the area of Public Financial Management:
4. Public disclosure:

The scheme is being implemented through a web based application developed and deployed by the O/o Controller General of Accounts which leverages its well established accounting and financial reporting application viz. COMPACT & e-Lekha and the interfaces developed with the banking system. All Ministries / Departments are required to register the details of agencies / individual beneficiaries receiving grants from Government of India on the PFMS application along with their bank account details.

Twenty-nine state/UT governments have notified the NPS for their new employees.
