PREFACE

Employment Exchanges are the major source in India to provide assistance to job-seekers by helping them in finding suitable employment, provide vocational guidance to shape their careers and present Labour Market Information for policy planning and research purposes. The details of educational, vocational and other qualifications of job-seekers registered with the Employment Exchanges provide a useful source of data at national as well as local levels. While the State Governments compile this data at the district/ State level, Directorate General of Employment (DGE) compiles and publishes the data at national level.

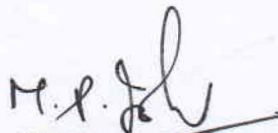

2. The present publication, 19th in series, contains annual and time series data on various fields of activities of the Employment Exchanges such as registration, placement, live register, submission, etc. Efforts have been made to make the publication as up-to-date as possible. I hope this will meet the growing need of manpower planners, job-seekers, employers and other users.

3. The publication has been possible only with the active support and co-operation of the State Governments/Union Territory Administrations. I am grateful to the Directors/Officers-in-charge of Employment of various States/Union Territories and their officials in the Employment Exchanges for furnishing the information in the prescribed format.

4. I must also place on record my sincere appreciation of the work accomplished by Officers & staff of Statistical Section under the able guidance and supervision of Shri S.B. Singh, Deputy Director General (Employment) in systematic data collection, compilation, analysis and presenting in an analytical manner in the publication.

5. We are in continuous process of improving the publication in all respects and, therefore, request the users for their valuable comments/suggestions.

FRAME WORK FOR DATA COLLECTION

1.1 Introduction

National Employment Service in the country functions in the legal framework of Employment Exchange (Compulsory Notification of Vacancies) Act, 1959 through a network of Employment Exchanges located in various parts of the country. The services rendered by the Employment Exchanges include registration & placement, vocational guidance and career counseling and collection of Employment Market Information, etc. National Employment Service covers all the States and Union Territories with a network of 978 Employment Exchanges as on 31st December, 2015 (*Except Sikkim, since there is no employment exchange is functioning in this State*). Administrative and financial control of Employment Exchanges lies with the respective State/U.T Governments. As part of their administrative functioning, Employment Exchanges collect data on various aspects of employment and unemployment and submit it to the respective State Directors of Employment and to the Directorate General of Employment (DGE). State Governments are required to compile this data at the State level, While Directorate General of Employment (DGE) compiles and releases this data at all India level.

Directorate General of Employment is responsible for laying down the policies, standards, norms and guidelines for coordination of the National Employment Service at all India level. In addition, it also evaluates and monitors employment and unemployment situation at all India level using various sources of employment data such as Census, Labour Force Surveys conducted by National Sample Survey Office (NSSO) and Employment Market Information (EMI) Programme, etc. **In this publication, data on job-seekers registered with the Employment Exchanges has been analyzed to evaluate incidence of unemployment in the country.**

1.4 Limitations of Data

Data flowing from the Employment Exchanges suffers from some limitations. These limitations arise out of the fact that the Employment Exchanges are mostly located in urban areas. The job seekers from the rural areas may find it difficult to register their names with the Employment Exchanges. Further, the registration of applicants with the Employment Exchanges is voluntary in nature. As such, the following limitations of the data may be kept in view while using the information contained in the publication: -

- The job seekers who are registered with the Employment Exchanges, all of whom may not necessarily be unemployed.
- All the job seekers who are unemployed do not necessarily register themselves with the Employment Exchanges.
- In some exceptional cases, there is a chance of duplication of registration.
- The job-seekers, after finding employment through agencies other than Employment Exchanges, do not intimate the Employment Exchanges for deletion of their names from the Live Register.
- Employers do not always intimate the Employment Exchanges about the selection of candidates even when selection is made from the list supplied by Employment Exchanges.

- There can be cases when job seekers could not renew their cards within the stipulated period and by virtue of their non-renewal, their names get deleted from the live register.
- A number of registrants do have some employment or the other, but are registered for better jobs, particularly, in the Public Sector.

1.5 National Career Service Portal

Ministry of Labour and Employment has been implementing National Career Service Project (NCSP) as a Mission Mode Project for transformation of the National Employment Service to provide a variety of employment related services like career counselling, vocational guidance, information on skill development courses, apprenticeship, internships etc. Under this project, the NCS Portal (NCSP) has been made functional at the URL (www.ncs.gov.in). The portal was dedicated to the Nation by Hon'ble Prime Minister of India on 20.07.2015. The NCSP is supported by a dedicated helpdesk (multi-lingual) available from Tuesday to Sunday (8.00 AM to 8.00 PM) on 1800-425-1514 for assisting users. The services under NCS are available online and can be accessed directly, through Career Centres, Common Service Centres, post offices, mobile devices, cyber cafes etc. The various stakeholders on the NCS platform include job seekers, industries, employers, employment exchanges (career centres), training providers, educational institutions and placement organizations.

The NCS Project also envisaged setting up of Model Career Centres (MCCs) to be established in collaboration with States and other institutions to deliver employment services. The Government has approved establishment of 107 Model Career Centres (including 7 non-funded MCCs) in the first phase. The Government provides financial assistance to these centres based on the proposals and scheme guidelines. These model centres can be replicated by the States from their own resources. The Government now, keeping in view the importance of employment as a thrust area and to provide employment related services to maximum job seekers and other stakeholders has decided to establish 100 more Model Career Centres (MCCs) thereby extending the geographical coverage of the scheme and increasing the number of Government funded MCCs to 200 during 14th Finance Commission period (2017-2020). 39 MCCs have been approved in the second phase. In addition, the NCS project has a component of interlinking of employment exchanges with NCS and provides central funding to States for upgradation of infrastructures in employment exchanges and organising Job fairs. The Government provides part financial assistance based on the proposals received from States and scheme guidelines.

Statistics given in this publication are exclusively received through employment exchanges of States/UTs in the country. The job-seeker's data available on National Career Service Portal (NCSP) is not included in this report.

“For data of job seekers, etc. registered on NCS portal please refer to report section of www.ncs.gov.in” (https://www.ncs.gov.in/_layouts/15/ncsp/ViewStaticReport.aspx)

EMPLOYMENT EXCHANGE STATISTICS: AN ANALYSIS

In this Chapter, Employment Exchange Statistics pertaining to the year ending December 2014 and 2015 have been presented. The number of job seekers on the live register of Employment Exchanges in the country has been classified according to several variables such as age, gender, education level, etc. and analyzed with a view to understand the labour market formation.

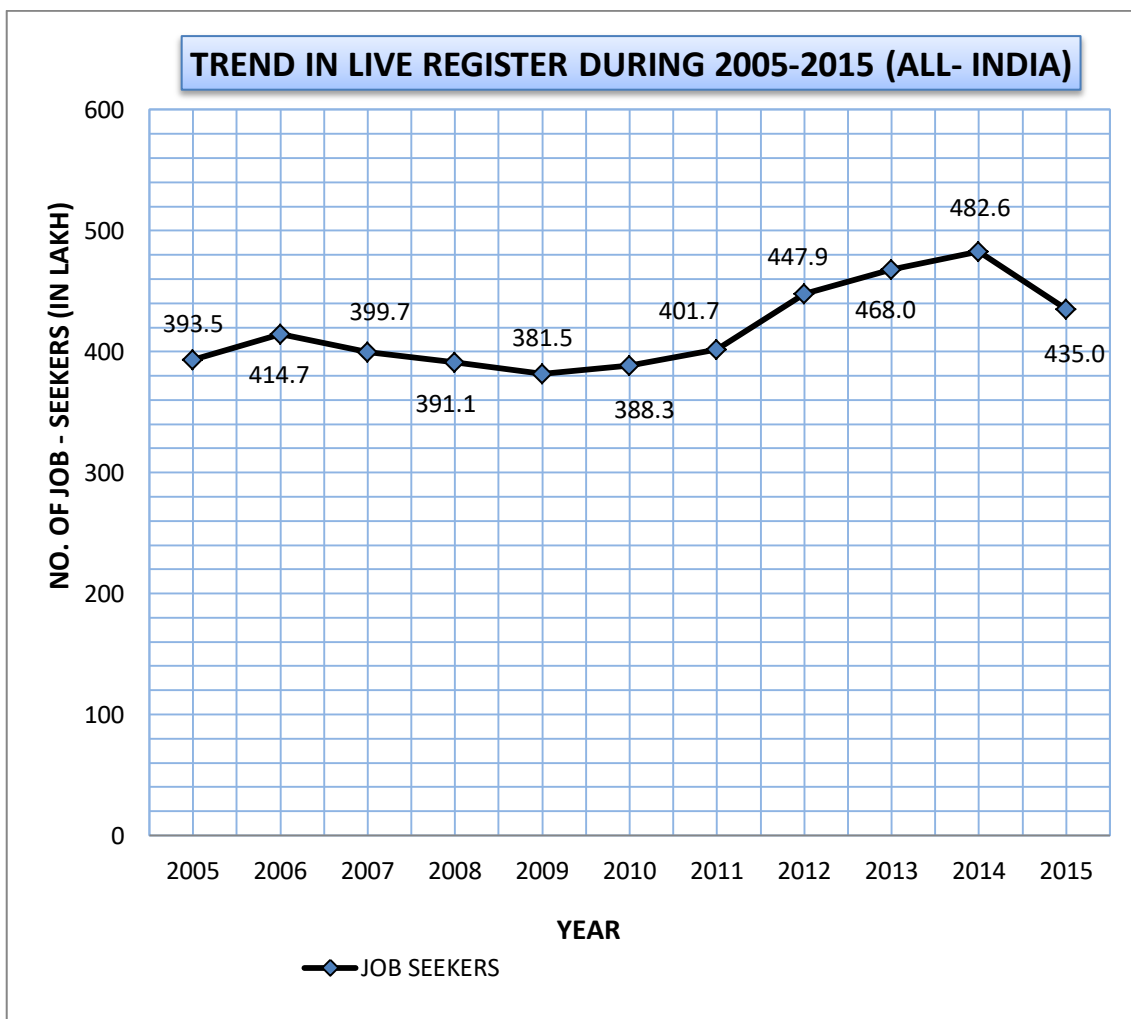

2.0 LIVE REGISTER

Live Register means systematic arrangement of Index Cards pertaining to applicants who are in need of employment assistance. Live Register, therefore, provides the total number of persons waiting for job as on a particular day. The number of job seekers on the Live Register of Employment Exchanges is often taken **as an indicator of the level of unemployment in the country.**

Annual time-series data on total number of job-seekers registered with the Employment Exchanges, placement effected against the vacancies notified, along with the number of job-seekers waiting for the job at end of the year (Live Register) for the period 2005-2015 are indicated in Table-1 at page 24. The salient features of the trends observed in Table No. 1 are given as under:

- As on 31st December 2015, 435.03 lakh persons were registered on live register with employment exchanges as compared to 482.61 lakh during previous year.
- On an average, around 63 lakh job seekers get registered with the Employment Exchanges per year during the last ten years.
- The total number of vacancies notified during each of the years between 2005 and 2015 varied between 3.5 and 8.2 lakh. The highest (8.2 lakh) was in 2011 and lowest (i.e. 3.5 lakh) was in 2005.
- Number of vacancies notified to the Employment Exchanges has increased to 7.8 lakh in 2015 from 7.6 lakh in 2014.
- The placement has increased to 3.65 lakh in 2015 from 3.39 lakh in the year 2014.
- Out of the total number of vacancies notified during 2015, around 49% were filled through the Employment Exchanges.

- Placement to submission ratio was around 9.2% at the all- India level during 2015.
- *Substantial decrease in job-seekers on live register has been observed in the year 2015 in comparison to the year 2014, albeit, the registration of job-seekers has increased. Since, there were a very large number of job-seekers in the category of job-seekers removed from Live Register for reasons other than transfer to other exchanges, which has decreased the number of job-seekers in overall Live Register. The major part of the removal of job-seekers was from Uttar Pradesh.*

Live Register: State wise

The State-wise distribution of Job-seekers registered with Employment Exchanges for the year 2015 is indicated in Table-2 at page 25. From the table, it is observed that:

- Maximum number of Employment Exchanges are in Uttar Pradesh (99) followed by Kerala (89) & West Bengal (77).
- The maximum number of job-seekers were in West Bengal (78.91 lakh) followed by Tamil Nadu (77.51 lakh), Maharashtra (36.87 lakh), Kerala (36.16 lakh), and Uttar Pradesh (35.01 lakh).
- Number of vacancies notified to the Employment Exchanges during the year 2015 were maximum in Gujarat (3.51 lakh) followed by Maharashtra (2.29 lakh), Uttar Pradesh (1.27 lakh) and Kerala (0.15 lakh). In other States, the vacancies notified varied between 0.01 and 0.13 lakh.
- 43.08 lakh job seekers were sponsored by the Employment Exchanges and out of these 3.95 lakh could find the placement which is less than the vacancies notified (810.3 thousand) during the year 2015.
- Registration during the year 2015 is largest in Tamil Nadu (15.27 lakh) followed by Uttar Pradesh (10.08 lakh).
- Placement during the year 2015 was highest in Gujarat (3.37 lakh).
