PREFACE

Employment Exchanges are the major source in India to provide assistance to job seekers by helping them in finding suitable employment, provide vocational guidance to shape their careers and present Labour Market Information for policy planning and research purposes. The details of educational, vocational and other qualifications of job seekers registered with the Employment Exchanges provide a useful source of data at national as well as local levels. While the State Governments compile this data at the district/ State level, Directorate General of Employment (DGE) compiles and publishes the data at national level.

2. The present publication, 22nd in series, contains annual and time series data on various fields of activities of the Employment Exchanges such as registration, placement, live register, submission, etc. Efforts have been made to make the publication as up-to-date as possible. I hope this will meet the growing need of manpower planners, job seekers, employers and other users.

3. The publication has been possible only with the active support and co-operation of the State Governments/Union Territory Administrations. I am grateful to the Directors/Officers-in-charge of Employment of various States/Union Territories and their officials in the employment exchanges for furnishing the information in the prescribed format.

4. I must also place on record my sincere appreciation of the work accomplished by officers & staff of Statistical Section under the able guidance and supervision of Shri S.B. Singh, Deputy Director General (Employment) in systematic data collection, compilation, analysis and presenting in an analytical manner in the publication.

5. We are in continuous process of improving the publication in all respects and, therefore, request the users for their valuable comments/suggestions.

FRAME WORK FOR DATA COLLECTION

1.1 Introduction

National Employment Service in the country functions in the legal framework of Employment Exchange (Compulsory Notification of Vacancies) Act, 1959 through a network of Employment Exchanges located in various parts of the country. The services rendered by the Employment Exchanges include registration & placement, vocational guidance and career counseling and collection of Employment Market Information, etc. National Employment Service covers all the States and Union Territories with a network of 997 Employment Exchanges (*Except Sikkim, since there is no employment exchange is functioning in this State*). Administrative and financial control of Employment Exchanges lies with the respective State/U.T. Governments. As part of their administrative functioning, Employment Exchanges collect data on various aspects of employment and unemployment and submit it to the respective State Directorate of Employment and to the Directorate General of Employment (DGE). State Governments are required to compile this data at the State level, While Directorate General of Employment (DGE) compiles and releases this data at all India level.

Directorate General of Employment is responsible for laying down the policies, standards, norms and guidelines for coordination of the National Employment Service at all India level. In addition, it also evaluates and monitors employment and unemployment situation at all India level using various sources of employment data such as Census, Labour Force Surveys conducted by National Statistical Office (NSO) and Employment Market Information (EMI) Programme etc. **In this publication, data on job seekers registered with the Employment Exchanges has been analyzed to evaluate incidence of unemployment in the country.**

1.4 Limitations of Data

Data flowing from the Employment Exchanges suffers from some limitations. These limitations arise out of the fact that the Employment Exchanges are mostly located in urban areas. The job seekers from the rural areas may find it difficult to register their names with the Employment Exchanges. Further, the registration of applicants with the Employment Exchanges is voluntary in nature. As such, the following limitations of the data may be kept in view while using the information contained in the publication: -

- ❖ The job seekers who are registered with the Employment Exchanges, all of whom may not necessarily be unemployed.
- ❖ All the job seekers who are unemployed do not necessarily register themselves with the Employment Exchanges.
- ❖ In some exceptional cases, there is a chance of duplication of registration.
- ❖ The job seekers, after finding employment through agencies other than Employment Exchanges, do not intimate the Employment Exchanges for deletion of their names from the Live Register.
- ❖ Employers do not always intimate the Employment Exchanges about the selection of candidates even when selection is made from the list supplied by Employment Exchanges.

- ❖ There can be cases when job seekers could not renew their cards within the stipulated period and by virtue of their non-renewal, their names get deleted from the live register.
- ❖ A number of registrants do have some employment or the other, but are registered for better jobs, particularly, in the Public Sector.

1.5 National Career Service Portal

Ministry of Labour and Employment is implementing National Career Service (NCS) Project as a Mission Mode Project for transformation of the National Employment Service to provide a variety of employment related services like career counselling, vocational guidance, information on skill development courses, apprenticeship, internships etc. Under this project, the NCS Portal (NCSP) has been made functional at the URL (www.ncs.gov.in). The portal was dedicated to the Nation by Hon'ble Prime Minister of India on 20.07.2015. The NCSP is supported by a dedicated helpdesk (multi-lingual) available from Tuesday to Sunday (8.00 AM to 8.00 PM) on 1800-425-1514 for assisting users. The services under NCS are available online and can be accessed directly, through Career Centres, Common Service Centres, post offices, mobile devices, cyber cafes etc. The various stakeholders on the NCS platform include job seekers, industries, employers, employment exchanges (career centres), training providers, educational institutions and placement organizations.

The NCS Project also envisaged setting up of Model Career Centres (MCCs) to be established in collaboration with States and other institutions to deliver employment services. The Government has approved establishment of 200 Model Career Centres. The Government provides financial assistance to these centres based on the proposals and scheme guidelines. These Model Career Centres can be replicated by the States from their own resources. In addition, the NCS project has a component of interlinking of employment exchanges with NCS and provides central funding to States for up-gradation of infrastructures in employment exchanges and organizing Job fairs. The Government provides part financial assistance based on the proposals received from States and scheme guidelines.

Statistics given in this publication are exclusively received through employment exchanges of State/UTs in the country. The job seeker's data available on National Career Service Portal (NCSP) is not included in this report.

“For data of job seekers, etc. registered on NCS portal please refer to report section of www.ncs.gov.in” (https://www.ncs.gov.in/_layouts/15/ncsp/ViewStaticReport.aspx)

EMPLOYMENT EXCHANGE STATISTICS: AN ANALYSIS

In this Chapter, Employment Exchange Statistics pertaining to the year ending December 2017 and 2018 have been presented. A comparison with earlier report results is also done in some cases. The number of job seekers on the live register of Employment Exchanges in the country has been classified according to several variables such as age, gender, education level, etc. and analyzed with a view to understand the labour market formation.

2.0 LIVE REGISTER

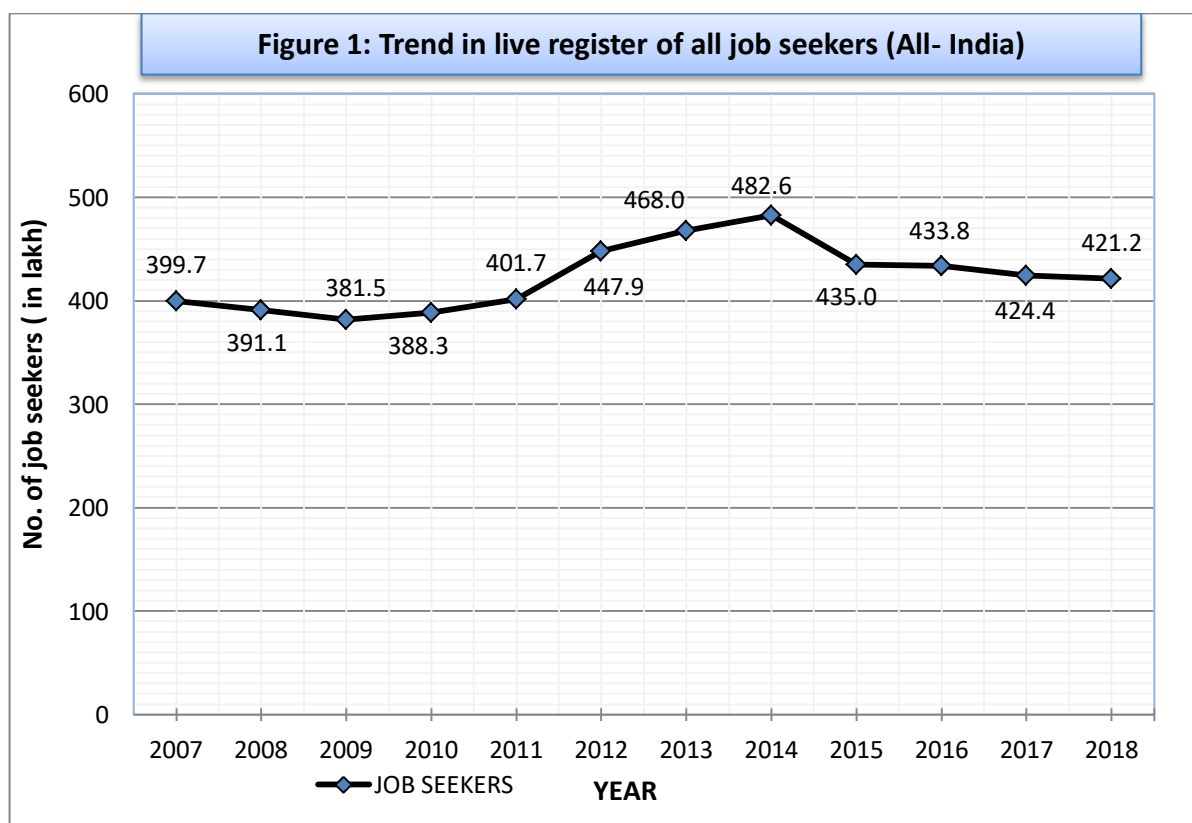

Live Register means systematic arrangement of Index Cards pertaining to applicants who are in need of employment assistance. Annual time-series data on total number of job seekers registered with the Employment Exchanges, placement effected against the vacancies notified, along with the number of job seekers waiting for the job at end of the year (Live Register) for the period 2007-2018 are given in detail in [Table-1](#). 	(in lakh)				
Year	2014	2015	2016	2017	2018
