Reference is invited to communications from the Ministry of Labour & Employment wherein it has been requested to identify the presence of child and adolescent labour through survey in the districts and Ministry's letter of even number dated 18.02.2016 regarding revised survey guidelines under NCLP Scheme.

2. *Child and adolescent labour survey* being the immediate starting point of the National Child Labour Project (NCLP) is one of the key inputs required for smooth implementation of the National Child Labour Project *by identification of working children and adolescents employed in scheduled occupations/process* as per Child and Adolescent Labour (Prohibition and Regulation) Act, 1986. An amount of Rs. 4 Lakh is released for survey to each district project society twice in a plan period. The comprehensive guidelines regarding survey may also be seen at 'para 4.2 to 4.7' of the chapter IV of revised NCLP Guidelines effective from 1st April, 2016. Revised NCLP Guidelines may be seen from the Ministry of Labour and Employment website (www.labour@gov.in).

3. As per request received from several District Project Societies / Stakeholders and to bring uniformity of data for tracking system, a **"survey format" for conducting survey as per revised NCLP Guidelines is enclosed**. It is expected that all district project societies will adhere to this format. This survey format is devised to ensure to capture basic minimum amount of data at field level/ survey area. District Project Society may, however, add new fields, if required, subject to the ceiling of expenditure of Rs 4 lakhs meant for survey under NCLP Scheme.
